

# CHEMOSPHERE

## SUBJECT AND AUTHOR INDEX

Volume 18, 1989

Pergamon Press: Oxford New York  
Beijing Frankfurt São Paulo Sydney Tokyo Toronto

## EXECUTIVE EDITOR

**Dr. T. Stephen**, 8 Lewis Close, Risinghurst, Headington, Oxford OX3 8JD, U.K.

## POLICY BOARD

### Chemistry and Biochemistry

— **Professor O. Hutzinger** (Chairman) (Alfreda Hutzinger, Editorial Assistant), University of Bayreuth, Chair of Ecological Chemistry and Geochemistry, Postfach 10 12 51, D-8580 Bayreuth, G.F.R.

### Biology

— **Dr. J. Norris** (Director of Group Research, Cadbury Schweppes Ltd.), The Lord Zuckerman Research Centre, The University, Whiteknights, P.O. Box 234, Reading RG6 2LA, U.K.

### Ecotoxicology

— **Prof. Dr. J. P. Giesy**, Department of Fisheries and Wildlife, Michigan State University, East Lansing, MI 48824-1222, U.S.A.

— **Dr. W. Klein**, Fraunhofer-Institut für Umweltchemie und Ökotoxikologie, Grafschaft/Hochsauerland, D-5948 Schmalleberg, G.F.R.

### Pharmaceutical Organic Chemistry

— **Dr. E. Takabatake**, Satsunan University, Faculty of Pharmaceutical Sciences, 45-1 Nagaotoge-cho, Hirakata, Osaka 573-01, Japan

### Toxicology

— **Professor S. Safe**, Veterinary Physiology and Pharmacology, Texas A and M University, College Station, TX 77843, U.S.A.

### Atmospheric Chemistry and Air Pollution

— **Dr. M. A. K. Khalil**, Oregon Graduate Center, 19600 N.W. Von Neumann Drive, Beaverton, OR 97006, U.S.A.

## PARTICIPATING BOARD

### Chemistry and Biochemistry

**Prof. Dr. K. Ballschmiter**, Universität Ulm (MNH), Abteilung Analytische Chemie, Oberer Eselsberg 026, D-7900 Ulm, G.F.R.

**Prof. T. F. Bidleman**, Department of Chemistry and Marine Science Program, University of South Carolina, Columbia, SC 29208, U.S.A.

**Dr. R. E. Clement**, Ontario Ministry of the Environment, P.O. Box 213, Resources Road, Rexdale, Ontario, Canada M9W 2L1

**Dr. P. E. Des Rosiers**, Research and Development Office, U.S. Environmental Protection Agency, 401 M-Street SW, Washington, DC 20460, U.S.A.

**Dr. H. S. Fuhr**, c/o Mobay Corporation, HES Department, Bldg 5, Mobay Road, Pittsburgh, PA 15205, U.S.A.

**Dr. W. Giger**, Swiss Federal Institute of Technology, Institute for Water Research and Water Pollution Control (EAWAG), CH-8600 Dübendorf, Switzerland

**Prof. Dr. H. P. Hagenmaier**, Department of Organic Chemistry, University of Tübingen, Auf der Morgenstelle 18, D-7400 Tübingen 1, G.F.R.

**Dr. F. Hileman**, Monsanto Company, 800 N Lindbergh Boulevard, St Louis, MO 63167, U.S.A.

**Prof. R. A. Hites**, School of Public and Environmental Affairs, 400E 7th Street, Indiana University, Bloomington, IN 47405, U.S.A.

**Prof. Dr. P. M. Huang**, Saskatchewan Institute of Pedology, University of Saskatchewan, Saskatoon, Canada S7N 0W0

**Mr. D. W. Kuehl**, US Environmental Protection Agency, Duluth, MN 55804, U.S.A.

**Dr. R. C. Lao**, Technology Development and Technical Services Branch, Environment Canada, River Road Environmental Technology Centre, Ottawa, Ontario, Canada K1A 0H3

**Prof. D. Mackay**, Department of Chemical Engineering, University of Toronto, Canada M5S 1A4

**Dr. T. Mill**, Stanford Research International, 333 Ravenswood Avenue, Menlo Park, CA 94025, U.S.A.

**Prof. A. A. Moghissi**, PO Box 7166, Alexandria, VA 22307, U.S.A.

**Prof. Dr. H. Parlar**, Gesamthochschule Kassel-Universität, Fachbereich 19 Biologie/Chemie, Heinrich-Plett-Strasse 40, D-3500 Kassel, G.F.R.

**Prof. C. Rappe**, University of Umeå, Institute of Environmental Chemistry, S-901 87 Umeå, Sweden

**Dr. A. Sabljic**, Institute Ruder Boškoyic, Department of Physical Chemistry, P.O.B. 1016, 41001 Zagreb, Croatia, Yugoslavia

**Prof. Dr. H.-R. Schulten**, Fachhochschule Fresenius, Department of Trace Analysis, Dambachtal 20, D-6200 Wiesbaden, G.F.R.

**Dr. G. Sundström**, Dow Sverige AB, P.O. Box 7038, S-103 86 Stockholm, Sweden

**Prof. Dr. P. R. Wallnöfer**, Bayerische Landesanstalt für Ernährung, Menzinger Strasse 54, D-8000 München, G.F.R.

**Dr. V. Zitko**, Program Head, Toxicology and Organic Contaminants Section, Marine Chemistry Division, Department of Fisheries and Oceans, Biological Station, St. Andrews, New Brunswick, Canada E0G 2X0

### Biology

**Dr. A. G. Catroux**, Laboratoire de Microbiologie des Sols, 7 Rue Sully, 21 Dijon, France

**Prof. G. D. Floodgate**, Department of Marine Biology, Marine Science Laboratories, Menai Bridge, Anglesey LL59 5EH, U.K.

**Prof. C. Nalewajko**, Scarborough College, University of Toronto, West Hill, Ontario, Canada M1C 1A4

### Ecotoxicology

**Dr. S. M. Bartell**, Environmental Sciences Division, Oak Ridge National Laboratory, Oak Ridge, TN 37830, U.S.A.

**Dr. G. C. Butler**, 4694 West 13th Avenue, Vancouver, British Columbia, Canada V6R 2V7

**Prof. Dr. D. Calamari**, Istituto di Entomologia, Facoltà di Agraria, Università degli Studi di Milano, Via Celoria 2, I-20133 Milano, Italy

**Dr. R. T. Digiulio**, Duke University, School of Forestry and Environmental Studies, Durham, NC 27706, U.S.A.

**Prof. Dr. W. Ernst**, Alfred-Wegener-Institut für Polar- und Meeresforschung, Postfach 120161, Columbusstrasse, D-2850 Bremerhaven, G.F.R.

**Prof. M. Goto**, Institute of Ecotoxicology, Gakushuin University, Faculty of Science, 151 Merjiro, Toshima-Ku, Tokyo 171, Japan

**Dr. P. C. Kearney**, Natural Resources Institute, USDA, ARS, Office of Deputy Area Director, Building 001, Room 233, Barc-West, Beltsville, MD 20705, U.S.A.

**Dr. S. J. Klaine**, Memphis State University, Department of Biology, Memphis, TN 38152, U.S.A.

**Dr. P. F. Landrum**, Great Lakes Environmental Research Laboratory, NOAA/USDC, 2205 Commonwealth Boulevard, Ann Arbor, MI 48105-1593, U.S.A.

**Prof. F. Schmidt-Bleek**, OECD 2, Rue André-Pascal, F-75775 Paris Cedex 16, France

**Dr. A. Spacie**, Purdue University, Department of Forestry and Natural Resources, Forestry Building, West Lafayette, IN 47907, U.S.A.

**Prof. R. Truhaut**, Université de Paris, 4 Avenue Del Observatoire, Centre Faculté de Pharmacie, F-75006 Paris 6, France

### Pharmaceutical Organic Chemistry

**Dr. C. Harinasuita**, The CCB/TROMPMED Central Office, 420/6 Rajvithi Road, Bangkok 4, Thailand

**Dr. C. Mitoma**, Stanford Research Institute, 333 Ravenswood Avenue, Menlo Park, CA 94025, U.S.A.

### Toxicology, Pharmacokinetics and Epidemiology

**Dr. R. Kociba**, Dow Chemical Company, 1803 Building, Midland, MI 48674, U.S.A.

**Prof. Dr. Y. Masuda**, Daiichi College of Pharmaceutical Sciences, 22-1 Tamagawa-Cho, Minami-ku, Fukuoka 815, Japan

**Dr. W. Mücke**, c/o Bavarian State Ministry for State Development and Environmental Affairs and Ludwig-Maximilians-Universität München, Pernerstrasse 62, 8017 Ebersberg, G.F.R.

**Prof. Dr. Ch. Schlatter**, Institute of Toxicology, Federal Institute of Technology, University of Zurich, Schorenstrasse 16, CH-8603 Schwerzenbach, Switzerland

**Prof. Dr. R. R. Suskind**, Department of Environmental Health, Kettering Laboratory, University of Cincinnati, 3223 Eden Avenue, Cincinnati, OH 45267, U.S.A.

Twenty-four issues per year, published in two volumes.

# SUBJECT INDEX VOL. 18 1989

## Accidents

- Seveso, data analysis, mathematical approach in environmental science, 855

## Adsorption

- and chlorination of naphthalene on fly ash from municipal incinerators, 2193
- and structure of arylcarbamate, phenylurea and anilide pesticides in soil, relation to model organic adsorbents, 1871
- clean-up procedure for PCDDs and PCXDFs, rapid detn based on retention on activated carbon AX-21, 1741
- coeffs of-, of organic chemicals, soil preparation for estimation, 1495
- competitive-, of alkylbenzenes and water vapors on predominantly mineral surfaces, 1971
- of dye-containing effluents with different bentonites, effect of pH, 1707
- organic compds on anhydrous and hydrated sorbents, equilibrium adsorption and energetics, 2177

## Agriculture

- mutagenicity bioassays applied to evaluating land, 2423
- phenoxy herbicide-exposed farm workers, non-Hodgkin's lymphoma, 401
- sprayer of herbicides, elevated levels of 2,3,7,8-TCDD in tissues, single case study, 469

## Algae

- Cladocera macrocopa*, effect of Cd on feeding behaviour, of 1681

## Alkalis

- strong alkali, effect on PCDF and PCDD determination, 149

## Ames test

- mutagenicity assay, soils, 1657

## Amines

- diethylamine, detn in air using diffusive sampling and thiourea formation, high performance liquid chromatography, 2121

## Amino acids

- tryptophan, UV-irradiation yields
- AHH-inducing compds with high affinity for Ah receptor, 1101

## Ammonification

- and nitrification of soil, effect of urea-pesticide combinations, 2329

## Analysis

- 2,3,7,8-TCDD in serum for Vietnam veteran Agent orange study, detn, analytical methodology and method performance, ranch hand validation and half-life studies and selected NIOSH worker studies, 875
- 2,3,7,8-TCDD, detn in processed wastewater in parts per quadrillion level, 2257
- 2,3,7,8-TCDD, unusual non-linearity effects observed, implications for quantitative accuracy, 819
- adsorption of organic compds on anhydrous and hydrated sorbents, equilibrium adsorption and energetics, 2177
- brominated flame retardants, formation of PCDD and PCDF, combustion equipment, analysis and synthesis of standards, 1235
- butyltins in sediments, Boston harbor, 2043 by EPAS RCRA method of bromochlorodibenzo-p-dioxins and dibenzofurans 8280
- CDDs and CDFs, in surface water near chemical dump sites, analysis using aqueous phase liquid extractor, 133
- chloranils, commercial samples, 789
- chlorobenzenes, and permethrins, fate during anaerobic sewage sludge digestion, 1771
- comparison of methods for chlorinated dioxin/dibenzofuran in pyrolysed transformer oil samples, 1093
- correlation of adipose and blood levels of dioxin and dibenzofuran congeners in agent orange exposed Vietnam veterans, 517
- data-, mathematical approach in environmental science, lecture

- of Seveso, 855
- dibenzofuran in diphenyl oxide and relationship to brominated dibenzofurans in brominated diphenyl oxide, 217
- dioxin bioavailability to animals from contaminated soils, 925
- dioxin in environmental samples, application of IR spectroscopy, 897
- dioxins and furans in ambient atmosphere, baseline study, 593
- early-, for detection, recovery yields of 2,3,7,8-TCDD in soil samples at Seveso, 989
- GC - headspace-, with dibromomethane as internal standard, quantitative detn of volatile organochlorine compds, in water, 1425
- GC/MS techniques to measure 2,3,7,8-TCDD in ambient air, 141
- headspace-, and AOX measurement, application to leachate from waste landfills, 1943
- human serum, 2,3,7,8-TCDD measurement, quality assurance program for large-scale study, 1009
- humic substances extracted with dipolar aprotic solvents, FT-IR spectra, 1927
- identification of bromo/chloro dibenzodioxins and dibenzofurans in ash samples, 201
- identification of methylsulphonyl dichlorobiphenyls, polychlorinated biphenyl methylsulphone congeners in human tissues, 477
- levels of 2,3,7,8-TCDD in adipose tissues, persons of no known exposure and in exposed persons, 499
- LFER, sorbate-organic matter interactions, effect on sorption nonequilibrium, 1691
- methods and exposure assessment, concluding remarks, 1325
- methods and exposure assessment of dioxins and furans, 17
- methods, combustion equipment and synthesis of standards, formation of PBDD and PBDF from brominated flame retardants, 1235
- model compds for environmental

analyses, chlorination of p-cymene by Cl in CCl<sub>4</sub>, 1921  
 multivariate data-, applied to PCDDs and PCDFs in municipal incinerator emissions, 1935  
 multivariate-, application to detn of PCBs in fly ash from municipal incinerators, 2213  
 municipal incinerator fly ash for bromo- and bromochloro-dioxins, dibenzofurans and related compds, 193  
 new protocol for multimedia characterisation of PCDDs and PCDFs by high resolution gas chromatography/high resolution mass spectrometry, 119  
 pattern-, of PCDDs and PCDFs in environmental samples, approach to occurrence/source correlation, 609  
 PCBs and DDT in white suckers, 2065  
 PCDD and PCDF samples, 847  
 PCDDs and PCDFs in human milk, WHO/EURO quality study, 883  
 PCDFs and PCDDs determination, effect of strong alkali, 149  
 pine tree rings, acid deposition and element composition, 1913  
 procedures for measurement of PCDDs/PCDFs in pulp and paper industry solid wastes, interlaboratory comparison of methods, 77  
 program for risk assessment, closed herbicide plant in Germany, 903  
 separating procedures for isolation of 2,3,7,8-TCDD and 2,3,7,8-TCDF from chemically-complex aqueous and solid matrices and quantitation at PPQ to PPT concentrations, 93  
 survey of typical levels of PCBs in Welsh soils, 1665  
 TCDD transport at Times beach and at Eglin AFB, rate comparison, 1305  
 trace level-, by capillary gas chromatography with electron capture and mass selective detection of phthalate esters in surface water and suspended particulate matter, 2161  
 tributyltin in environment, sources and fate, assessment of present status and research needs, 2015

#### Animals see also Fish

birds, PCDDs and PCDFs, levels, trends and patterns in Scandinavian environmental samples, 651  
 blubber of seals, identification of tris(chlorophenyl)methanol, 1799  
 cattle feedlot, environmental fate of ivermectin, 1531  
 dioxin bioavailability from contaminated soils, analytical assessment, 925  
 dioxin, dose response assessment, 1  
 eggs of common terns, PBC mixtures found by 3 parameters derived from the fractions of 45 congeners, 2303  
 female rat, liver DNA alterations by 2,3,7,8-TCDD and 1,2,3,7,8-pentachlorodibenzo-p-dioxin, 681  
 lactating cows, bioavailability of administered grain- and soil-borne tritiated 2,3,7,8-TCDD, 125  
 lactating Holstein cows, bioavailability of administered grain and soil-borne tritiated 2,3,7,8-TCDD 1257  
 male rats, OCDD exposure, subchronic effects, 389

mammals, selective retention of PCDDs and PCDFs, a multiple cause problem, 677  
 marine mammals, increased threat of non-ortho and mono-ortho coplanar PCBs from land to ocean, 485  
 mice and insects from various environments, level of PCDD and PCDF, 759  
 mice, 2,3,7,8-TCDD, physiologically-based pharmacokinetic model, 659  
 mice, arochlor 1254 as 2,3,7,8-TCDD antagonist, 709  
 mice, TCDD treatment, increase in epidermal Langerhans cells in skin, 253  
 monkeys exposed to 2,3,7,8-TCDD, behaviour when transmitted maternally during gestation and for 4 months of nursing, 235  
 monkeys, chronic dietary intake of 2,3,7,8-TCDD at 5 or 25 ppt; TCDD kinetic and dose effect estimate of reproductive toxicity, 243  
 rat, metabolism of selected PCDFs, 259  
 rats and fish, bioaccumulation and elimination of tetrachlorobenzyltoluene, 2051  
 rats, comparative effects of 2,3,7,8-TCDD and progesterone on estrogenic responses, 745  
 rats, effect of TCDD on estradiol metabolism and enzyme altered foci in a two stage hepatocarcinogenesis model, 695  
 rats, perinatally dosed with 2,3,7,8-TCDD, 2,3,4,7,8-PeCDF and 1,2,3,7,8-PeCDD, relative toxicity measured by thymus weight and live enzyme induction, 955  
 rats, subchronic relay toxicity study of PCDD and PCDF mixtures, 277  
 rats, subchronic toxicity of chlorinated dibenzofurans, 265  
 rats, synthesis of monooxygenase forms P-450<sub>c</sub> and P-450<sub>d</sub>, effect of TCDD and comparable inducers, 715  
 rats, TCDD-induced embryotoxicity, due to maternal toxicity? 291  
 rats, tissue distribution study in synthesis and use of mutagen 3-<sup>14</sup>C-3-chloro-4-(dichloromethyl)-5-hydroxy-2(5H)-furanone, 2229  
 Rhesus monkeys, chronic TCDD exposure, associated immune abnormalities, 313  
 rodents, 2,3,7,8-TCDD treatment, decreased hepatic cytosolic glucocorticoid receptor binding, 737  
 selected species, toxic significance of 2,3,7,8-TCDD residues, 1079  
 Sprague-Dawley rats and Hartley guinea pigs, vitamin A homeostasis and 7-ethoxy-resorufin O-deethylase activity, 2,3,7,8-TCDD-induced changes, 299  
 Sptague-Dawley rats, effects of combinations of PCDDs/PCDFs, 283

#### Antibiotics

ivermectin environmental safety, an overview, 1565  
 ivermectin in cattle feedlot, environmental fate, 1531  
 ivermectin use, environmental fate and effects, 1543  
 UV-mediated antibiotic activity of synthetic thiophenes and their acetylenic derivs, 2317

#### Aquatic organisms

mussels from offshore oil production platform, vertical distribution of aliphatic and aromatic hydrocarbons, 1809  
Mytilus edulis, octachlorostyrene, metabolism, 1573  
 quantitative structure-activity relationship to fatty acids and Na-salts, 1621

#### Aquatic systems

anoxic marine environment, distribution and fate of halogenated organic compds, 2247  
 aquatic toxicity and environmental behaviour of PCBs, comparison with polychlorinated monomethyl substituted diphenylmethanes, 1367  
 Boston harbor, butyltins in sediments, 2043  
 Dutch inland waters, PCDDs and PCDFs, 539  
 harbours and lakes, distribution of polychlorinated biphenyls in water, sediment and biota, 2141  
 insect growth regulator, methoprene, detn in natural waters by capillary gas-liquid chromatography, 2275  
 lake Ontario, relative toxicity of CDDs, CDFs and PCBs in salmonids to mammalian systems using toxic equivalent factors, 1413  
 lake water, linear alkylbenzene sulphonate degradation, effect of microbial population size, 1589  
 lakes, QWASI fugacity model, application to dynamics of organic and inorganic chemicals 1343  
 major watersheds in USA, 2,3,7,8-TCDD contamination of fish, 1997  
 non-ortho and mono-ortho coplanar PCBs from land to ocean, increasing threat to marine mammals, 485  
 PCDDs and PCDFs in selected estuarine sediments, 553  
 river sediments, chlorinated dioxin and dibenzofuran levels, 831  
 selected estuarine sediments, PCDDs and PCDFs, 553  
 toxicity of marine sediments and dredge spoils, evaluation with microtox bioassay, 2069  
 tributyltin in environment, sources and fate, assessment of present status and research needs, 2015

#### Atmosphere

and chlorination of naphthalene on fly ash from municipal incinerators, 2193  
 air, detn of diethylamine using diffusive sampling and thiourea formation, high performance liquid chromatography, 2121  
 ambient air and incinerator testing for CDDs and CDFs by low resolution mass spectrometry, 585  
 ambient air, GC/MS techniques to measure 2,3,7,8-TCDD, 141  
 ambient air, PCDDs and PCDFs, concentrations, sources and health risk assessment, 1713  
 ambient air sampling techniques for collecting PCDD, PCDF and PCB, assessment, 177  
 ambient atmosphere around municipal waste incinerators, PCDDs and PCDFs in dust, 577  
 ambient atmosphere, baseline study for dioxins and furans, 593

- dioxin removal in "energy from waste plants" comparison of air pollution control methods, 1731
- indoor air of kindergartens, levels of PCDD and PCDF, 617
- indoor air pollution by dioxins in day nurseries, risk assessment and management, 1139
- office buildings, background concentrations of PCDDs and PCDFs, 599
- pesticide dissipation from soil and vapor decline in air, models for estimation, 2375
- QWASI fugacity model, application to dynamics of organic and inorganic chemicals in lakes, 1343
- volatilisation and dissipation of acidic herbicides from soil under controlled conditions, 2363
- volatilisation and dissipation of halogenated pesticide from soil under controlled conditions, 2353
- Behaviour**
- of monkeys exposed to 2,3,7,8-TCDD transmitted maternally during gestation and for 4 months of nursing, 235
- Bioaccumulation**
- and elimination of tetrachlorobenzyltoluene by rat and by fish, 2051
- in mussels from offshore oil production platform, vertical distribution of aliphatic and aromatic hydrocarbons, 1809
- Bioassay**
- in vitro* AHH induction-, for detn of 2,3,7,8-TCDD equivalents, applications in pyrolysed flame retardant mixtures, 383
- in vitro*-, detection of dioxin-like activity in fish, sediment and surface wipes, 793
- AHH induction-, for the detn of 2,3,7,8-TCDD toxic equivalents, validation, 941
- microtox-, evaluation of toxicity of marine sediments and dredge spoils, 2069
- mutagenicity-, applied to evaluating land, 2423
- Bioavailability**
- dioxin to animals from contaminated soils, analytical assessment, 925
- of administered grain- and soil-borne tritiated 2,3,7,8-TCDD to lactating cows, 1257
- plant uptake of 2,3,7,8-TCDD from soil and potential influences of bioavailability, 1313
- Bioconcentration**
- levels of nitrated phenols in conifer needles, 2433
- Biodegradation**
- soil mobility and mineralisation of nitroguanidine and guanidine nitrate, 2389
- Biomass**
- mineralisation and side effects of dichloprop dependent on organic C-content, 1447
- Biota**
- and water and sediment of harbours and lakes, distribution of polychlorinated biphenyls, 2141
- Biphenyls**
- arochlor 1254 as 2,3,7,8-TCDD antagonist in mice, 709
- chlorinated aromatic hydrocarbons, detn in fly ash by capillary gas chromatography and mass selective detection, evaluation of clean-up methods, 1401
- coplanar PCB, PCDD and PCDF in patients with Yusho disease and in Yusho oil, levels, 407
- extremely toxic coplanar PCBs, new studies, toxic significance of planar aromatic compds in Baltic ecosystem, 1067
- methylsulphonyl polychlorinated biphenyls, inhibitory effect on aryl hydrocarbon hydroxylase activity, 701
- monomethyl-substituted diphenylmethanes, environmental behaviour, comparison with PCBs, pyrolysis experiments, 1199
- municipal solid waste incinerator, evaluation and comparison of emission and immission of organic and inorganic compds, 2263
- non-ortho and mono-ortho coplanar PCBs from land to ocean, increasing threat to marine mammals, 485
- PCB and DDT, analysis in white suckers, 2065
- PCB and PCDF, human exposure, increased SCE frequencies in lymphocytes when incubated with 3-naphthoflavone due to metabolic activation by P-450 isozymes, 687
- PCB, CDD, and CDF relative toxicity in lake Ontario salmonids to mammalian systems using toxic equivalent factors, 1413
- PCB detn in fly ash from municipal incinerators, application of multivariate analysis, 2213
- PCB, DDT, DDE and HCB and PCDD/F isomer levels in various organs in autopsy tissue from USA patients, 811
- PCB disposal facilities, PCB, PCDD and PCDF contamination, 569
- PCB, environmental behaviour and aquatic toxicity, comparison with polychlorinated monomethyl substituted diphenylmethanes, 1367
- PCB in Welsh soils, survey of typical levels, 1665
- PCB metabolism, possible involvement of frontier electrons, 1955
- PBC mixtures found in biological samples by 3 parameters derived from the fractions of 45 congeners, 2303
- PCB, PCDD and PCDF in ambient air, assessment of sampling techniques for collection, 177
- PCB, PCDD, PCD, DDT and DDE, hexachlorobenzene, dieldrin, hexachlorocyclohexanes and oxychlorodane, levels in human breast milk, 445
- polychlorinated biphenyls, isomer specific detn, two-dimensional reaction gas chromatography, 101
- polychlorinated biphenyl methylsulphone congeners in human tissues, identification of methylsulphonyl dichlorobiphenyls, 477
- Buildings**
- kindergartens, indoor air, levels of PCDD and PCDF, 617
- office buildings, background concentrations of PCDDs and PCDFs, 599
- Calculations**
- data analysis, mathematical approach in environmental science, lecture of Seveso, 855
- Carbamates**
- phenmedipham and other biscarbamates, distribution in inside leaf fragments of *Chenopodium album* and *Spinacia oleracea* plants, 2077
- Catalysts**
- different Cl donors and catalysts, pyrolysis of dibenzodioxin, dibenzofuran and 1,2,3,4-tetrabromodibenzodioxin, 1213
- Chemicals**
- aqueous solubility and n-octanol/water coeff correlations, 1837
- dynamics of organic and inorganic-, in lakes, application of QWASI fugacity model, 1343
- organic-, soil preparation for estimation of adsorption coeffs, 1495
- planar aromatic compds, toxic significance in Baltic ecosystem, new studies on extremely toxic coplanar PCBs, 1067
- sorbate-organic matter interactions, effect on sorption nonequilibrium, 1691
- tree damage, causes, 1855
- water solubility and n-octanol/water partition coeff, evaluation of procedure for measurement, result of ring test, 1749
- Cholanthrene**
- 2,3,7,8-TCDD and 3-methylcholanthrene, dynamic comparison of rat liver benzyrene-hydroxylase induction, 723
- 2,3,7,8-TCDD, 3-methylcholanthrene and phenobarbital treated rats, two-dimensional gel electrophoresis of live microsomal proteins, 947
- Chromatography**
- adsorption of organic compds on anhydrous and hydrated sorbents, equilibrium adsorption and energetics, 2177
- capillary gas-, and mass selective detection, detn of chlorinated aromatic hydrocarbons in fly ash, evaluation of clean-up methods, 1401
- capillary gas-, with electron capture and mass selective detection, trace level analysis of phthalate esters in surface water and suspended particulate matter, 2161
- capillary gas-liquid-, detn of insect growth regulator methoprene in natural waters, 2275
- chlortoluron levels and selectivity in wheat cultivars, 1673
- GC-headspace analysis with dibromomethane as internal standard, quantitative detn of volatile organochlorine compds, in water, 1425
- GC/MS analysis and pyrolysis in on-line operation of brominated flame retardants, 1047
- GC/MS and GC/MS/MS techniques, quantitation of TCDD in soils and sediments from industrial sites, 163
- generator column, 2,3,7,8-TCDD

solubility studies, 933  
 high performance liquid-, detn of diethylamine in air using diffusive sampling and thiourea formation, 2121  
 high resolution gas /high resolution mass spectrometry, new analytical protocol for multimedia characterisation of PCDDs and PCDFs, 119  
 PCDDs and PCXDFs, clean-up procedure for rapid detn based on retention on activated carbon AX-21, 1741  
 reversed phase liquid-, with pyrenylethylsilylated and octadecylsilylated silica gel, PCDD synthesis, purification of products, 827  
 serum levels of DDT, DDE and DDD, single step extraction and cleanup procedure, 2985  
 soil mobility and mineralisation of nitroguanidine and guanidine nitrate, 2389  
 toxicity of selected N-containing aromatic compds in *Tetrahymena pyriformis* and *Pimephales promelas* test systems, 2283  
 two-dimensional reaction gas-, specific detn of polychlorinated biphenyl isomers, 101  
 various fused silica GC columns, retention of tetrachlorinated dibenzodioxins and dibenzofurans, 85

#### Clays

adsorption of organic compds on anhydrous and hydrated sorbents, equilibrium adsorption and energetics, 2177  
 for removal and disposal of chlorinated dioxins and other pollutants from industrial waste water, 333

#### Coal mining

dioxin in paper mill sludge used to reclaim abandoned Appalachian coal mines, potential risk from exposure, 1131

#### Combustion

ash data from-, results of tier 4 national dioxin study, 1227  
 bromo/chloro dibenzodioxins and dibenzofurans, identification in ash samples, 201  
 equipment, analytical methods and synthesis of standards, formation of PBDD and PBDF from brominated flame retardants, 1235  
 municipal solid wastes and PCDD and PCDF emissions, 1457  
 municipal solid wastes, PCDD and PCDF in emissions and in stack gases, 1465  
 municipal waste, CDDs and CDFs from stacks, regulatory analysis of pollutant emissions, 1143  
 outdoor waste burning, resulting PCDDs and PCDFs in environment, 1025  
 PCDD/PCDF, sources and emissions, 23  
 products of high impact polystyrene with and without decabromodiphenyl oxide/antimony trioxide as flame retardant, comparative toxicity using 1,2,7,8-TBDD and 2,3,7,8-TBDF as positive controls, preliminary report, 1243  
 slow-, and pyrolysis of benzene-HCl mixtures, formation of chloroarenes, 1965

#### Complexing agents

iron-, of NTA, EDTA and DTPA, aqueous photolysis, 1805

#### Computer studies

study using MMP2 force field method for dioxin derivs, 1005

#### Concentration

chlorinated dibenzo-p-dioxins and dibenzofurans in soil from vicinity of waste incinerator, 851

#### Conformation

octachlorodibenzofuran, evaluation of molecular structure, 1039

#### Congenital abnormalities

birth defects, hydatidiform mole and fetal deaths in utero between 1952 and 1985 in hospital in Vietnam, 805  
 reproductive abnormalities in women inhaling herbicide sprayed and non-herbicide sprayed areas, 843  
 women giving birth to deformed babies and those with hydatidiform mole, estimate of differences seen at OB-GYN hospital in Vietnam, 801

#### Contamination

fish by 2,3,7,8-TCDD, 1997  
 dioxin-, Missouri problem solution, 1171  
 food chain, PCDD/PCDF from incinerators, assessment and critical factors, 1123  
 PCDDs and PCDFs, potential source via interaction between sample and packaging material, 891  
 solving-, by dioxin, 1171  
 TCDD-, of Times beach, geometrical description, 1251  
 water supply-, by atrazine and molinate, report, 2339

#### Decontamination

soil and ground water beneath closed herbicide plant, case study, 1163

#### Degradation

carbafuran and its degradation products, effect on soil respiration and microbial numbers, 2345  
 fate of crude oil residues in sediments, 2093  
 ivermectin use, environmental fate and effects, 1543  
 linear alkylbenzene sulphonate-, in lake water, effect of microbial population size, 1589  
 mutagens 3-chloro-4-(dichloromethyl)-5-hydroxy-2(5H)-furanone and E-2-chloro-2-(dichloromethyl)-4-oxo-butenoic acid, chemical stability, 2237  
 PCDDs, correlation of incineration parameters, 1485  
 photo-, of pendimethalin in solvents and in Kalyani soil, 1611  
 photocatalytic-, of bentazon by TiO<sub>2</sub> particles, 1437  
 thermal-, products of spruce needles, 1855

#### Dehalogenation

laboratory and field tests to demonstrate efficacy of KPEG reagent for PCDD and PCDF in hazardous wastes and contaminated soils, 835

#### Detoxification

2,3,7,8-TCDD in soil by full scale rotary-kiln incinerator, 355  
 dioxin contaminated waste using potassium polyethylene glycolate, 343

#### Dioxins

<sup>14</sup>C-2,3,7,8-TCDD, distribution between parenchymal and non-parenchymal rat hepatic cells and effect of vitamin A content of these cells, 307  
 1,2,7,8-TBDD and 2,3,7,8-TBDF as positive controls, comparative toxicity of combustion products of high impact polystyrene with and without decabromodiphenyl oxide/antimony trioxide as flame retardant, preliminary report, 1243  
 2,3,7,8-TCDD and 1,2,3,7,8-pentachlorodibenzo-p-dioxin, liver DNA alterations in female rat, 681  
 2,3,7,8-TCDD and 3-methylcholanthrene, rat liver benzpyrene-hydroxylase induction, dynamic comparison, 723  
 2,3,7,8-TCDD and Ah receptor protein, kinetics of interaction, 731  
 2,3,7,8-TCDD and progesterone, comparative effects on estrogenic responses in rats, 745  
 2,3,7,8-TCDD and related compds, blood levels, effects of fasting, 525  
 2,3,7,8-TCDD at 5 or 25 ppt, chronic dietary intake of monkeys, TCDD kinetic and dose effect estimate of reproductive toxicity, 243  
 2,3,7,8-TCDD contamination of fish, 1997  
 2,3,7,8-TCDD equivalents, detn by *in vitro* AHH induction bioassay, applications for pyrolysed flame retardant mixtures, 383  
 2,3,7,8-TCDD in adipose tissue, elevated body burdens, 431  
 2,3,7,8-TCDD in ambient air, GC/MS techniques for measurement 141  
 2,3,7,8-TCDD in serum for Vietnam veteran Agent orange study, detn, analytical methodology and method performance, ranch hand validation and half-life studies and selected NIOSH worker studies, 875  
 2,3,7,8-TCDD in serum, basis for measurement, 425  
 2,3,7,8-TCDD in soil samples at Seveso, recovery yields of early analyses for detection, 989  
 2,3,7,8-TCDD, adipose tissue levels in adults in Vietnam 1984-87, 1057  
 2,3,7,8-TCDD, analysis, unusual non-linearity effects observed, implications for quantitative accuracy, 819  
 2,3,7,8-TCDD, assessment of exposure in Seveso area, 913  
 2,3,7,8-TCDD, dechlorinated, toxicological evaluation of by-products, 2293  
 2,3,7,8-TCDD, detn in processed wastewater in parts per quadrillion level, 2257  
 2,3,7,8-TCDD, documentation for occupational exposure limit, 1115  
 2,3,7,8-TCDD, effects of geographical conditions, soil movement on distribution in adipose tissues from Vietnam, 967  
 2,3,7,8-TCDD, elevated levels in

- tissue of herbicide sprayer, single case study, 469
- 2,3,7,8-TCDD in soil,
- decontamination by full scale rotary-kiln incinerator, 355
- 2,3,7,8-TCDD-induced changes in Sprague-Dawley rats and Hartley guinea pigs, vitamin A homeostasis and 7-ethoxyresorufin O-deethylase activity, 299
- 2,3,7,8-TCDD, induction of hepatic monooxygenase system, reexamination of dose response relationship, 363
- 2,3,7,8-TCDD levels in adipose tissues of persons of no known exposure and in exposed persons, 499
- 2,3,7,8-TCDD, measurement in human serum, quality assurance program for large-scale study, 1009
- 2,3,7,8-TCDD, monkeys exposure, behaviour when transmitted maternally during gestation and for 4 months of nursing, 235
- 2,3,7,8-TCDD, occupationally exposed workers, assessment of immune system, quality control in cross-sectional epidemiological study, 867
- 2,3,7,8-TCDD, physiologically-based pharmacokinetic model, 659
- 2,3,7,8-TCDD residues in selected animal species, 1079
- 2,3,7,8-TCDD, solubility studies using generator column, 933
- 2,3,7,8-substituted brominated dibenzodioxins and dibenzofurans, micro-scale bromination for synthesis from  $^{13}\text{C}$ -labelled precursors, 1761
- 2,3,7,8-TCDD toxic equivalents, validation of AHH induction bioassay for dioxin, 941
- 2,3,7,8-TCDD treatment of rodents, decreased hepatic cytosolic glucocorticoid receptor binding, 737
- 2,3,7,8-TCDD, tritiated, grain- and soil-borne, administered to lactating cows, bioavailability, 1257
- 2,3,7,8-TCDD, 2,3,4,7,8-PeCDF and 1,2,3,7,8-PeCDD, relative toxicity measured by thymus weight and live enzyme induction in perinatally dosed rats, 955
- 2,3,7,8-TCDD, 3-methylcholanthrene and phenobarbital treated rats, two-dimensional gel electrophoresis of live microsomal proteins, 947
- advances in risk management control technologies, 41
- analyses of environmental samples, application of IR spectroscopy, 897
- analytical methods and exposure assessment, 17
- and dibenzofuran congeners, correlation of adipose and blood levels in agent orange exposed Vietnam veterans, 517
- and furans in ambient atmosphere, baseline study, 593
- and furans, monitoring in precipitation samples, 777
- and related compds, formation and decomposition in fluidised bed incinerators, 321
- and simple chloroalkane, isotopic carbon exchange, 2311
- arochlor 1254 as 2,3,7,8-TCDD antagonist in mice, 709
- bioavailability of grain and soil-borne tritiated 2,3,7,8-TCDD administered to lactating Holstein cows, 1257
- bioavailability to animals from contaminated soils, analytical assessment, 925
- brominated flame retardants, formation of PCDD and PCDF, combustion equipment, analysis and synthesis of standards, 1235
- bromo- and bromochloro-dioxins, dibenzofurans and related compds, analysis of municipal incinerator fly ash, 193
- bromochlorodibenzo-p-dioxins and dibenzofurans, prep and analysis by EPAS RCRA method 8280
- bromo/chloro dibenzodioxins and dibenzofurans, identification in ash samples, 201
- CDD and CDF, ambient air and incinerator testing by low resolution mass spectrometry, 585
- CDD and CDF, characterisation of risks, 33
- CDDs and CDFs, establishing toxicity equivalence factors, reexamination of data used, 371
- CDD and CDF from stacks of municipal waste combustors, regulatory analysis of pollutant emissions, 1143
- CDD and CDF in effluents and sludge from pulp and paper mills, 1189
- CDD and CDF in environment by tandem mass spectrometry, 155
- CDD and CDF in surface water near chemical dump sites, analysis using aqueous phase liquid extractor, 133
- CDD, CDF and PCB, relative toxicity in lake Ontario salmonids to mammalian systems using toxic equivalent factors, 1413
- chlorinated aromatic hydrocarbons, dioxin in fly ash by capillary gas chromatography and mass selective detection, evaluation of clean-up methods, 1401
- chlorinated dibenzodioxin and dibenzofurans, concentration in soil from vicinity of waste incinerator, 851
- chlorodibenzodioxin, hydride-enhanced photoreaction, 329
- chlorinated dioxin and dibenzofuran in human milk from Japan, India and USA, 975
- chlorinated dioxin and dibenzofuran levels in sediments collected from rivers, 831
- chlorinated dioxin and other pollutants, clays for removal and disposal from industrial waste water, 333
- chlorinated dioxin/dibenzofuran in pyrolysed transformer oil samples, comparison of analytical methods, 1093
- comparative toxicity of combustion products of high impact polystyrene with and without decabromodiphenyl oxide/antimony trioxide as flame retardant using 2,3,7,8-tetrabromodibenzo-p-dioxin and 2,3,7,8-tetrabromodibenzofuran as positive controls, 1243

- various, levels of PCDD and PCDF in mice and insects, 759

**Enzymes**

- 2,3,7,8-TCDD, induction of hepatic monooxygenase system, reexamination of dose response relationship, 363
- altered foci and estradiol metabolism, effect of TCDD in a two stage hepatocarcinogenesis model in rats, 695
- aryl hydrocarbon hydroxylase activity, inhibitory effect of methylsulphonyl polychlorinated biphenyls, 701
- monooxygenase forms P-450<sub>c</sub> and P-450<sub>d</sub> synthesis in rats, effect of TCDD and comparable inducers, 715
- rat liver benzpyrene-hydroxylase induction, dynamic comparison of 2,3,7,8-TCDD and 3-methylcholanthrene, 723
- thymus weight and live enzyme induction, rats perinatally dosed with 2,3,7,8-TCDD, 2,3,4,7,8-PeCDF and 1,2,3,7,8-PeCDD, measurement of relative toxicity, 955
- vitamin A homeostasis and 7-ethoxyresorufin O-deethylase activity, 2,3,7,8-TCDD-induced

changes in Sprague-Dawley rats and Hartley guinea pigs, 299

**Epidemiology**

- 2,3,7,8-TCDD, occupationally exposed workers, assessment of immune system, quality control in cross-sectional study, 867

**Esters**

- phthalate esters in surface water and suspended particulate matter, trace level analysis by capillary gas chromatography with electron capture and mass selective detection, 2161

**Ethers**

- organo chlorine compds and bromodiphenyl ethers in livers of Atlantic cod, 2131

**Excretion**

- urinary products, detn after exposure of Man to o-xylene, 1513

**Exposure**

- analytical methods and exposure assessment, concluding remarks, 1325

**Fasting**

- effects on blood levels of 2,3,7,8-TCDD and related compds, 525

**Fatty acids**

- and Na-salts, quantitative structure-activity relationship to aquatic organisms, 1621

**Fires**

- kerosene heaters and wood-burning fireplaces, levels of benzo(A)pyrene in indoor environment, 1829
- PVC-fire, PCDD and PCDF emissions, 1031

**Fish**

- 2,3,7,8-TCDD contamination, 1997 and rats, bioaccumulation and elimination of tetrachlorobenzyltoluene, 2051
- and sediment and surface wipes, detection of dioxin-like activity using *in vitro* bioassay, 793
- ivermectin use, environmental fate and effects, 1543
- lake Ontario salmonids, CDDs, CDFs and PCBs in, relative toxicity to mammalian systems using toxic equivalent factors, 1413
- livers of Atlantic cod, presence of organo chlorine compds and bromodiphenyl ethers, 2131
- PCDDs and PCDFs, levels, trends and patterns in Scandinavian environmental samples, 651
- rainbow trout, selective accumulation of chlorinated paraffins(C<sub>12</sub> and C<sub>18</sub>) in olfactory organ, 1821
- toxicity of selected N-containing aromatic compds in *Tetrahymena pyriformis* and *Pimephales promelas* test systems, 2283
- white suckers, analysis for PCBs and DDT, 2065

**Flame retardants**

- brominated-, formation of PCDD and PCDF, combustion equipment, analysis and synthesis of standards, 1235
- brominated-, pyrolysis and GC/MS analysis in on-line operation, 1047

- comparative toxicity of combustion products of high impact polystyrene with and without decabromodiphenyl oxide/antimony trioxide as flame retardant using 2,3,7,8-tetrabromodibenzo-p-dioxin and 2,3,7,8-tetrabromodibenzofuran as positive controls, 1243
- pyrolysed mixtures, applications *in vitro* AHH induction bioassay for detn of 2,3,7,8-TCDD equivalents, 383

**Fly ash**

- detn of chlorinated aromatic hydrocarbons by capillary gas chromatography and mass selective detection, evaluation of clean-up methods, 1401
- from municipal incinerators, adsorption and chlorination of naphthalene, 2193
- from municipal incinerators, application of multivariate analysis to detn of PCBs, 2213
- PCDD and PCDF in-, and in emissions from combustion of municipal solid wastes, 1475

**Food**

- cattle feedlot, environmental fate of ivermectin, 1531
- fish consumption, correlation with levels of PCDD and PCDF in breast milk, 455
- food chain contamination, PCDD/PCDF from incinerators, assessment and critical factors, 1123
- food intake, body burden from PCDD and PCDF, 417
- food samples collected between 1985-87 in N and S Vietnam, levels of PCDDs and PCDFs, 627

**Furans**

- 2,3,4,7,8-PeCDF, 2,3,7,8-PCDD and 1,2,3,7,8-PeCDD, relative toxicity measured by thymus weight and live enzyme induction in perinatally dosed rats, 955
- 2,3,7,8-substituted brominated dibenzodioxins and dibenzofurans, micro-scale bromination for synthesis from <sup>13</sup>C-labelled precursors, 1761
- 2,3,7,8-substituted PCDF radioligands, receptor binding characteristics, 1089
- 1,2,7,8-TBDF and 2,3,7,8-TBDD as positive controls, comparative toxicity of combustion products of high impact polystyrene with and without decabromodiphenyl-oxide/antimony trioxide as flame retardant, preliminary report, 1243
- analytical methods and exposure assessment, 17
- and dioxins in ambient atmosphere, baseline study, 593
- and dioxins, monitoring in precipitation samples, 777
- bromo- and bromochloro-dioxins, dibenzofurans and related compds, analysis of municipal incinerator fly ash, 193
- bromochlorodibenzo-p-dioxins and dibenzofurans, prep and analysis by EPAS RCRA method 8280
- bromo/chloro dibenzodioxins and dibenzofurans, identification in ash samples, 201
- CDF and CDD, ambient air and incinerator testing by low resolution mass spectrometry, 585
- CDF and CDD, characterisation of risks, 33

- CDF and CDD, concentration in soil from vicinity of waste incinerator, 851
- CDF and CDD, establishing toxicity equivalence factors, reexamination of data used, 371
- CDF and CDD from stacks of municipal waste combustors, regulatory analysis of pollutant emissions, 1143
- CDF and CDD in environment by tandem mass spectrometry, 155
- CDF CDD and PCB, relative toxicity in lake Ontario salmonids to mammalian systems using toxic equivalent factors, 1413
- chlorinated aromatic hydrocarbons, detn in fly ash by capillary gas chromatography and mass selective detection, evaluation of clean-up methods, 1401
- chlorinated-, and other pollutants, clays for removal and disposal from industrial waste water, 333
- chlorinated dioxin and dibenzofuran levels in sediments collected from rivers, 831
- chlorinated dioxin and dibenzofuran in human milk from Japan, India and USA, 975
- chlorinated dioxin/dibenzofuran in pyrolysed transformer oil samples, comparison of analytical methods, 1093
- chlorinated-, formation by thermal decomp of vinylidene chloride polymer, 1737
- chlorinated-, subchronic toxicity in rats, 265
- comparative toxicity of combustion products of high impact polystyrene with and without decabromodiphenyl oxide/antimony trioxide as flame retardant using 2,3,7,8-tetrabromodibenzo-p-dioxin and 2,3,7,8-tetrabromodibenzofuran as positive controls, 1243
- dibenzofuran and dioxin congeners, correlation of adipose and blood levels in agent orange exposed Vietnam veterans, 517
- dibenzofuran, dibenzodioxin and 1,2,3,4-tetrabromodibenzodioxin, pyrolysis with different Cl donors and catalysts, 1213
- dibenzofuran in diphenyl oxide and relationship to brominated dibenzofurans in brominated diphenyl oxide, 217
- dibenzodifuran, thermal decomposition curves by scanned tube pyrolysis with on-line ion trap MS detection, 1017
- hydroxydibenzofuran, formation from chlorophenols adsorbed on Fe-ion exchanged montmorillonite, 1895
- municipal solid waste incinerator, evaluation and comparison of emission and immision of organic and inorganic compds, 2263
- OCDF, evaluation of molecular structure, 1039
- PCDF and PCB, human exposure, increased SCE frequencies in lymphocytes when incubated with  $\alpha$ -naphthoflavone due to metabolic activation by P-450 isozymes, 687
- PCDF and PCDD, ambient air concentrations, sources and health risk assessment, 1713
- PCDF and PCDD, analysis of samples, 847
- PCDF and PCDD, background concentrations in office buildings, 599
- PCDF and PCDD, blood and adipose tissue levels over 3 years in patient after exposure, 635
- PCDF and PCDD body burden from food intake, 417
- PCDF and PCDD, concentrations in human fat and liver samples, 491
- PCDF and PCDD concentrations in municipal incinerator emissions, interlaboratory validation, 185
- PCDF and PCDD detn, effect of strong alkali, 149
- PCDF and PCDD, detn in environment using high resolution mass spectrometry, 109
- PCDF and PCDD, emissions from PVC-fire, 1031
- PCDF and PCDD, formation by production processes for Mg and refined Ni, 1379
- PBDF and PBDD, formation from brominated flame retardants, combustion equipment, analytical methods and synthesis of standards, 1235
- PCDF and PCDD from municipal waste incinerators, 1785
- PCDF and PCDFs in bleached pulp and paper mills, occurrence and fate, 1181
- PCDF and PCDD in dust of ambient atmosphere in municipal waste incinerators, 577
- PCDF and PCDD in Dutch inland waters, 539
- PCDF and PCDD in emissions and in fly ash, combustion of municipal solid wastes, 1475
- PCDF and PCDD in emissions and in stack gases, combustion of municipal solid wastes, 1465
- PCDF and PCDF in environment resulting from outdoor waste burning, 1025
- PCDF and PCDD in environmental samples, pattern analysis, approach to occurrence/source correlation, 609
- PCDF and PCDD in hazardous wastes and contaminated soils, laboratory and field tests to demonstrate efficacy of KPEG reagent, 835
- PCDF and PCDD in human milk, interim health risk evaluation, 1107
- PCDF and PCDD in human milk, WHO/EURO quality study, 883
- PCDF and PCDD in mice and insects from various environments, 759
- PCDF and PCDD in municipal incinerator emissions, application of multivariate data analysis, 1935
- PCDF and PCDD in selected estuarine sediments, 553
- PCDF and PCDD in UK soils, survey of background, 767
- PCDF and PCDD isomers in blood of Vietnam veterans two decades after exposure to agent orange, isomer specific measurement, 531
- PCDF and PCDD, levels in adipose tissue of occupationally exposed workers, 507
- PCDF and PCDD levels in breast milk as correlated with fish consumption, 455
- PCDF and PCFD, levels in food samples collected between 1985-87 in N and S Vietnam, 627
- PCDF and PCDD levels in human milk depends on period of lactation, 439
- PCDF and PCDD levels in human milk, dependence of various parameters, 1063
- PCDF and PCDD, levels in indoor air of kindergartens, 617
- PCDF and PCDD, levels, trends and patterns in Scandinavian environmental samples, 651
- PCDF and PCDD mixtures, subchronic relay toxicity study, 277
- PCDF and PCDD, new analytical protocol for multimedia characterisation by high resolution gas chromatography-high resolution mass spectrometry, 119
- PCDF and PCDD, occurrence and fate in five bleached Kraft pulp and paper mills, 1181
- PCDF and PCDD on airborne particles, long range transport, 1283
- PCDF and PCDD, post-furnace formation, implications for control, 1051
- PCDF and PCDD potential source of contamination via interaction between sample and packaging material, 891
- PCDF and PCDD, selective retention in mammals, a multiple cause problem, 677
- PCDF and PCDD presence in municipal solid wastes and in emissions on combustion, 1457
- PCDF and PCXDF, clean-up procedure for rapid detn based on retention on activated carbon AX-21, 1741
- PCDF/D isomers, PCB, DDT, DDE and HCB levels in various organs in autopsy tissue from USA patients, 811
- PCDF, PCDD and PCB ambient air, assessment of sampling PCDF, PCDD and PCB contamination, PCB disposal facilities, 569
- PCDF, coplanar PCB and PCDD in patients with Yusho disease and in Yusho oil, levels, 407
- PCDF, elimination and absence of pharmacokinetic interaction in liver of rat, 665
- PCDF/PCDD and chlorinated phenols in wood preservers for household use, 861
- PCDF/PCDD, combinations, effects on Sptague-Dawley rats, 283
- PCDF/PCDD, de novo synthesis on fly ash of municipal waste incinerators, 1219
- PCDF/PCDD, de-novo synthesis on flyash of municipal waste incinerators, 1219
- PCDF/PCDD in pulp and paper industry solid wastes, procedures for measurement, interlaboratory comparison of methods, 77
- PCDF/PCDD, sources and emissions, 23
- PCDF, PCDD PCB, DDT and DDE, hexachlorobenzene, dieldrin, hexachlorocyclohexanes and oxychlorane, levels in human breast milk, 445
- polychlorinated monobenzodioxins, monobenzofurans and monobromobenzenes, intermediates in formation of PCDDs and PCDFs during incineration of waste, 1431
- pyrolysis of dibenzodioxin, dibenzofuran and 1,2,3,4-tetrabromodibenzodioxin with different Cl donors and catalysts, 1213
- selected PCDF, metabolism in rat, 259
- techniques for collection, 177
- TCDF and TCDD, retention on various fused silica GC columns, 85
- twenty-nine halogenated dibenzo-p-dioxins and fifty-five dibenzofurans, prediction of vapor pressures, boiling pts and enthalpies of fusion by vapor pressure correlation method, 783

**Furnaces**

post-furnace formation of PCDDs and PCDFs, implications for control, 1051

**Grain**

bioavailability of grain and soil-borne tritiated 2,3,7,8-TCDD administered to lactating Holstein cows, 125,1257

**Halogenated compounds**

4-chloroaniline in soil, reaction with humic acid catechol, 1599  
chlorinated paraffins(C<sub>12</sub> and C<sub>18</sub>), selective accumulation in olfactory organ of rainbow trout, 1821  
chloroarenes, formation by pyrolysis and slow combustion of benzene-HCl mixtures, 1965  
chlorobenzenes, and permethrins, fate during anaerobic sewage sludge digestion, 1771  
chlorophenols, adsorbed on Fe-ion exchanged montmorillonite, formation of hydroxydibenzo-furans, 1895  
dioxins and simple chloroalkane, isotopic carbon exchange, 2311  
halogenated organic compds in anoxic marine environment, distribution and fate, 2247  
hypochlorous acid, reaction with peptides and proteins in presence of ammonium ion, formation of cyanogen chloride, 2101  
octachlorostyrene, metabolism in *Mytilus edulis*, 1573  
organo chlorine compds and bromodiphenyl ethers in livers of Atlantic cod, 2131  
polychlorinated monomethyl substituted diphenylmethanes, comparison with environmental behaviour and aquatic toxicity of PCBs, 1367  
polyhalogenated dibenzo-p-dioxins, synthesis, 225  
tetrachlorobenzyltoluene, bioaccumulation and elimination by rat and by fish, 2051  
tetrachlorobenzoquinones as a source of PCDD/PCDF, 789  
tris(chlorophenyl)methanol, identification in blubber of seals, 1799  
volatile organochlorine compds, quantitative detn in water by GC - headspace analysis with dibromomethane as internal standard, 1425

**Halogenation**

adsorption and chlorination of naphthalene on fly ash from municipal incinerators, 2193  
different chlorination reactions, reactivity of polycyclic aromatic hydrocarbons, 2201  
effect of chlorination pH and Cl dose on mutagenic activity and formation of strong bacterial mutagen 3-chloro-4-(dichloromethyl)-5-hydroxy-5(2H)-furanone in water, 1903  
micro-scale bromination for synthesis of 2,3,7,8-substituted brominated dibenzodioxins and dibenzofurans from <sup>14</sup>C-labelled precursors, 1761

**Halogens**

different Cl donors and catalysts, pyrolysis of dibenzodioxin, dibenzofuran and 1,2,3,4-

tetrabromodibenzodioxin, 1213  
effect of chlorination pH and Cl dose on mutagenic activity and formation of strong bacterial mutagen 3-chloro-4-(dichloromethyl)-5-hydroxy-5(2H)-furanone in water, 1903  
total organic Cl, leachate from waste landfills, application of headspace analysis and AOX measurement, 1943

**Hazard assessment**

phenoxy herbicide-exposed farm workers, non-Hodgkin's lymphoma, 401

**Health hazards**

2,3,7,8-TCDD, adipose tissue levels in adults in Vietnam 1984-87, 1057  
2,3,7,8-TCDD, assessment of exposure in Seveso area, 913  
2,3,7,8-TCDD, documentation for occupational exposure limit, 1115  
2,3,7,8-TCDD in adipose tissue, elevated body burdens, 431  
2,3,7,8-TCDD in serum for Vietnam veteran Agent orange study, detn, analytical methodology and method performance, ranch hand validation and half-life studies and selected NIOSH worker studies, 875  
2,3,7,8-TCDD, occupationally exposed workers, assessment of immune system, quality control in cross-sectional epidemiological study, 867  
adipose tissue of occupationally exposed workers, levels of PCDDs and PCDFs, 507  
adipose tissues, levels of 2,3,7,8-TCDD in persons of no known exposure and in exposed persons, 499  
analytical methods and exposure assessment of dioxins and furans, 17  
birth defects, hydatidiform mole and fetal death in utero between 1952 and 1985 in hospital in Vietnam, 805  
dioxin and dibenzofuran congeners, correlation of adipose and blood levels in agent orange exposed Vietnam veterans, 517  
dioxin from municipal waste incineration and background environmental contamination, comparison of human exposure, 643  
dioxin in paper mill sludge used to reclaim abandoned Appalachian coal mines, potential risk from exposure, 1131  
dioxin, dose response assessment, 1  
human exposure to PCBs and PCDFs, increased SCE frequencies in lymphocytes when incubated with  $\alpha$ -naphthoflavone due to metabolic activation by P-450 isozymes, 687  
indoor air pollution by dioxins in day nurseries, risk assessment and management, 1139  
indoor environment, benzo(A)pyrene levels from kerosene heaters and wood-burning fireplaces, 1829  
lake Ontario salmonids, CDDs, CDFs and PCBs in, relative toxicity to mammalian systems using toxic equivalent factors, 1413  
methylsulphonyl polychlorinated biphenyls, inhibitory effect on aryl hydrocarbon hydroxylase activity, 701  
Missouri dioxin problem, key factor, overcoming chemophobia, 1177

1177  
o-xylene, biological monitoring after exposure in Man, detn of urinary excretion products, 1513  
PCB, DDT, DDE and HCB and PCDD/F isomer levels in various organs in autopsy tissue from USA patients, 811  
PCDDs and PCDFs, blood and adipose tissue levels over 3 years in patient after exposure, 635  
PCDD and PCDF body burden from food intake, 417  
PCDDs and PCDFs in human milk, interim health risk evaluation, 1107  
PCDD/PCDF and chlorinated phenols in wood preservers for household use, 861  
reproductive abnormalities in women inhabiting herbicide sprayed and non-herbicide sprayed areas, 843  
risk assessment and sources of PCDDs and PCDFs concentrations in ambient air, 1713  
Vietnam veterans two decades after exposure to agent orange, measurement of PCDD and PCDF isomers in blood, 531

**Herbicides**

acidic-, volatilisation and dissipation from soil under controlled conditions, 2363  
atrazine and molinate, water supply contamination, report, 2339  
bentazon, photocatalytic degradation by TiO<sub>2</sub> particles, 1437  
chlortoluron levels and selectivity in wheat cultivars, 1673  
closed plant in Germany, analytical program for risk assessment, 903  
closed plant, soil and ground water beneath, case study and decontamination steps, 1163  
dichloprop, mineralisation and side effects in soil dependent on organic C-content, 1447  
elevated levels of 2,3,7,8-TCDD in tissue of sprayer, single case study, 469  
phenoxy acid-, use in Sweden, 391  
phenoxy-, exposed farm workers, non-Hodgkin's lymphoma, 401  
phenoxy-, including Agent orange and 2,3,7,8-TCDD, women giving birth to deformed babies and those with hydatidiform mole, estimate of differences seen at OB-GYN hospital in Vietnam, 801  
prometryn, repeated treatment of soil, fate of <sup>14</sup>C residues, 2155  
sprayed and non-herbicide sprayed areas, reproductive abnormalities in women, 843

**Hormones**

insect growth regulator, methoprene, detn in natural waters by capillary gas-liquid chromatography, 2275

**Humic substances**

extracted with dipolar aprotic solvents, FT-IR spectra, 1927  
humic acid catechol, reaction with soil 4-chloroaniline, 1599

**Hydrocarbons**

aliphatic and aromatic-, vertical distribution in mussels from offshore oil production platform, 1809  
alkylbenzenes and water vapors, competitive adsorption on

- predominantly mineral surfaces, 1971
- chlorinated aromatic-, detn in fly ash by capillary gas chromatography and mass selective detection, evaluation of clean-up methods, 1401
- chlorinated paraffins(C<sub>12</sub> and C<sub>18</sub>), selective accumulation in olfactory organ of rainbow trout, 1821
- chloroarenes, formation by pyrolysis and slow combustion of benzene-HCl mixtures, 1965
- chlorobenzenes, and permethrins, fate during anaerobic sewage sludge digestion, 1771
- benzo(A)pyrene indoor environment, levels from kerosene heaters and wood-burning fireplaces, 1829
- linear alkylbenzene sulphonate degradation in lake water, effect of microbial population size, 1589
- naphthalene, adsorption and chlorination on fly ash from municipal incinerators, 2193
- naphthalene sorption by soil from aqueous soln, dynamic studies, 2399
- o-xylene, biological monitoring after exposure in Man, detn of urinary excretion products, 1513
- p-cymene, chlorination by Cl in CCl<sub>4</sub>, model compds for environmental analyses, 1921
- polychlorinated monomethyl substituted diphenylmethanes, comparison with environmental behaviour and aquatic toxicity of PCBs, 1367
- polycyclic aromatic-, reactivity in different chlorination reactions, 2201
- tetrachlorobenzyltoluene, bioaccumulation and elimination by rat and by fish, 2051
- tris(chlorophenyl)methanol, identification in blubber of seals, 1799
- Hydrophobicity**
- arylcarbamate, phenylurea and anilide pesticides in soil and model organic adsorbents, relation between structure and adsorption, 1871
- Incinerators**
- and ambient air testing for CDDs and CDFs by low resolution mass spectrometry, 585
- dioxin, advances in risk management control technologies, 41
- dioxin removal in "energy from waste plants" comparison of air pollution control methods, 1731
- fluidised bed-, formation and decomposition of dioxins and related compds, 321
- fly ash from-, adsorption and chlorination of naphthalene, 2193
- fly ash from-, application of multivariate analysis to detn of PCBs, 2213
- full scale rotary-kiln-, decontamination of 2,3,7,8-TCDD in soil, 355
- incineration of waste, formation of polychlorinated monobenzodioxins, monobenzofurans and monobromobenzenes as intermediates in formation of PCDDs and PCDFs, 1431
- municipal-, analysis of fly ash for bromo- and bromochlorodioxins, dibenzofurans and related compds, 193
- municipal-, emissions, interlaboratory validation of PCDD and PCDF concentrations, 185
- municipal-, PCDDs and PCDFs in emissions, application of multivariate data analysis, 1935
- municipal waste-, and background environmental contamination from dioxin, comparison of human exposure, 643
- municipal waste-, evaluation and comparison of emission and immission of organic and inorganic compds, 2263
- municipal waste-, PCDDs and PCDFs, 1785
- municipal waste-, PCDDs and PCDFs in dust of ambient atmosphere, 577
- municipal waste-, PCDD/PCDF, de-novo synthesis on flyash, 1219
- PCDDs, destruction, correlation of incineration parameters, 1485
- PCDD/PCDF food chain contamination assessment, critical factors, 1123
- PCDD/PCDF, sources and emissions, 23
- waste-, chlorinated dibenzo-p-dioxin and dibenzofuran concentration in soil, 851
- Industry**
- bleached pulp and paper mills, occurrence and fate of PCDDs and PCDFs, 1181
- Cd, effect on feeding behaviour of *Cladocera macrocopa*, 1681
- closed herbicide plant in Germany, analytical program for risk assessment, 903
- five bleached Kraft pulp and paper mills, occurrence and fate of PCDDs and PCDFs, 1181
- sources of PCDD/PCDFs, phthalocyanine dyes, 1207
- offshore oil production platform, vertical distribution of aliphatic and aromatic hydrocarbons, in mussels, 1809
- PCB, PCDD and PCDF contamination, PCB disposal facilities, 569
- PCDD/PCDF, sources and emissions, 23
- phthalate esters in surface water and suspended particulate matter, trace level analysis by capillary gas chromatography with electron capture and mass selective detection, 2161
- pulp and paper mills, CDDs and CDFs in effluents and sludge, 1189
- soil mobility and mineralisation of nitroguanidine and guanidine nitrate, 2389
- soils and sediments from industrial sites, quantitation of TCDD by GC/MS and GC/MS/MS techniques, 163
- waste water, clays for removal and disposal of chlorinated dioxins and other pollutants, 333
- Ion exchangers**
- Fe-ion exchanged montmorillonite, adsorbed chlorophenols, formation of hydroxydibenzofurans, 1695
- Immune system**
- abnormalities in Rhesus monkeys associated with chronic TCDD exposure, 313
- quality control in cross-sectional epidemiological study, 2,3,7,8-TCDD, occupationally exposed workers, 867
- Insecticides**
- carbufuran and its degradation products, effect on soil respiration and microbial numbers, 2345
- DDT, DDE and DDD detn of serum levels, single step extraction and cleanup procedure, 2985
- PCB, DDT, DDE and HCB and PCDD/F isomer levels in various organs in autopsy tissue from USA patients, 811
- PCBs and DDT, analysis for in white suckers, 2065
- PCDDs, PCDFs PCBs, DDT and DDE, hexachlorobenzene, dieldrin, hexachlorocyclohexanes and oxychlordane, levels in human breast milk, 445
- permethrins and chlorobenzenes, fate during anaerobic sewage sludge digestion, 1771
- organophosphorus-, *Salmonella* mutagenicities comparative study, 2413
- Insects**
- and mice from various environments, level of PCDD and PCDF, 759
- Culex pipiens*, metabolism of diallyl sulphide, insecticidal principle of garlic, 1525
- growth regulator, methoprene, detn in natural waters by capillary gas-liquid chromatography, 2275
- Isotopic labelling**
- <sup>14</sup>C-labelled precursors, micro-scale bromination for synthesis of 2,3,7,8-substituted brominated dibenzodioxins and dibenzofurans, 1761
- chlorinated paraffins(C<sub>12</sub> and C<sub>18</sub>), selective accumulation in olfactory organ of rainbow trout, 1821
- Kinetics**
- interaction between 2,3,7,8-TCDD and Ah receptor protein, 731
- soil, naphthalene sorption from aqueous soln, dynamic studies, 2399
- Leaching**
- leachate from waste landfills, application of headspace analysis and AOX measurement, 1943
- Lignins**
- tree damage, causes, 1855
- Metabolism**
- <sup>14</sup>C 2,4,6-trichlorophenol in soil, 2383
- diallyl sulphide by *Culex pipiens*, 1525
- o-xylene, biological monitoring after exposure in Man, detn of urinary excretion products, 1513
- octachlorostyrene in *Mytilus edulis*, 1573
- PCBs, possible involvement of frontier electrons, 1955
- selected PCDFs in rat, 259
- two stage hepatocarcinogenesis model in rats, TCDD effect of TCDD on estradiol metabolism and enzyme altered foci, 695
- Metals and non metals and their compounds**
- borehydride enhanced

photoreactions of chlorodibenzodioxins, 329  
 butyltins in sediments, 2043  
 Cd, effect on feeding behaviour of Cd, Cu, Pb and Zn, pollution along Atlantic coast from Morocco, 1639  
 Cs, Zn, Sr, Co, Cd, Ce, Ru, Tc and I, distribution coeffs and fluctuations, association between in upper two horizons of Podzol forest soil, 2109  
 Fe-ion exchanged montmorillonite, adsorbed chlorophenols, formation of hydroxydibenzofurans, 1895  
 iron complexes of NTA, EDTA and DTPA, aqueous photolysis, 1805  
 levels of Al, Mn, Fe, Cu, Zn, Cd and Hg in *Vaccinium myrtillus* growing in tilled and untilled forest, effect of soil preparation, 1581  
 production processes for Mg and refined Ni, formation of PCDDs and PCDFs, 1379  
 struvite formation by bacteria, effect of pH, 1633  
 sulphur deposition, element composition and acid deposition of pine tree rings, 1913  
 TiO<sub>2</sub> particles, photocatalytic degradation of bentazon, 1437  
 tributyltin in environment, sources and fate, assessment of present status and research needs, 2015

#### Microorganisms

bacteria, struvite formation, effect of pH, 1633  
 ivermectin use, environmental fate and effects, 1543  
 microbial population size, effect on degradation of linear alkylbenzene sulphonate in lake water, 1589  
 mineralisation and side effects of dichloprop in soil dependent on organic C-content, 1447  
 phototoxicity of synthetic thiophene derivs to microorganisms compared with naturally occurring  $\alpha$ -terthienyl, 2317  
 Salmomella, mutagenicities of organophosphorus insecticides, comparative study, 2413  
 soil respiration and microbial numbers, effect of carbafulan and its degradation products, 2345  
 soil-, Ames mutagenicity assay, 1657  
 toxicity of selected N-containing aromatic compds in *Tetrahymena pyriformis* and *Pimephales promelas* test systems, 2283

#### Mineralisation

and side effects of dichloprop in soil dependent on organic C-content, 1447

#### Models

estradiol-, and enzyme altered foci in a two stage hepato-carcinogenesis model, effect of TCDD in rats, 695  
 description, TCDD distribution on all territory around Seveso, and time dependence of its parameters, 921  
 physiologically-based pharmacokinetic model, 2,3,7,8-TCDD, 659  
 QWASI fugacity-, application to dynamics of organic and inorganic chemicals in lakes, 1343

#### Molecular geometry

molecular geometry/toxicity of TCDDs, correlations by Fourier transform IR spectroscopy, 981

#### M.O. Calculations

computational study using MMP2 force field method for dioxin derivs, 1005

#### Mutagenicity

activity and formation of strong bacterial mutagen 3-chloro-4-(dichloromethyl)-5-hydroxy-5(2H)-furanone in water, effect of chlorination pH and Cl dose, 1903  
 Ames assay, soils, 1657  
 bioassays applied to evaluating land, 2423  
 organophosphorus insecticides, comparative study in Salmomella, 2413

#### Mutagens

3-<sup>14</sup>C-3-chloro-4-(dichloromethyl)-5-hydroxy-2(5H)-furanone, synthesis and use in tissue distribution study in rat, 2229  
 3-chloro-4-(dichloromethyl)-5-hydroxy-2(5H)-furanone and E-2-chloro-2-(dichloromethyl)-4-oxo-butenic acid, chemical stability, 2237

#### Nitrogen fixation

ammonification and nitrification of soil, effect of urea-pesticide combinations, 2329

#### Nucleic acids

liver DNA alterations by 2,3,7,8-TCDD and 1,2,3,7,8-pentachlorodibenzo-p-dioxin in female rat, 681

#### Oils

crude-, residues, fate in sediments, 2093  
 offshore-, production platform, vertical distribution of aliphatic and aromatic hydrocarbons in mussels, 1809

#### Paper

bleached pulp and paper mills, occurrence and fate of PCDDs and PCDFs, 1181  
 paper mill sludge used to reclaim abandoned Appalachian coal mines, potential risk from exposure to dioxin, 1131  
 pulp and paper industry solid wastes, procedures for measurement of PCDDs/PCDFs, interlaboratory comparison of methods, 77  
 pulp and paper mills, CDDs and CDFs in effluents and sludge, 1189  
 separating procedures for isolation of 2,3,7,8-TCDD and 2,3,7,8-TCDF from chemically-complex aqueous and solid matrices and quantitation at PPQ to PPT concentrations, 93

#### Partition coeffs

n-octanol/water-, and aqueous solubility correlations, 1837  
 n-octanol/water-, and water solubility of chemicals, evaluation of procedure for measurement, result of ring

test, 1749  
 octanol/water and air/water-, parameters for prediction of organochlorine pesticides in environment, 1987

#### Pesticides

applicators, risk of soft tissue sarcoma, Hodgkin's disease and non-hodgkin lymphoma, 395  
 arylcarbamate, phenylurea and anilide-, in soil and model organic adsorbents, relation between structure and adsorption, 1871  
 diallyl sulphide, insecticidal principle of garlic, environmental persistence and metabolism in *Culex pipiens*, 1525  
 dissipation from soil and vapor decline in air, models for estimation, 2375  
 halogenated-, volatilisation and dissipation from soil under controlled conditions, 2353  
 linuron, pyrolysis, 1017  
 organochlorine-, in environment, parameters for prediction, octanol/water and air/water partition coeffs, 1987  
 PCDDs, PCDFs PCBs, DDT and DDE, hexachlorobenzene, dieldrin, hexachlorocyclohexanes and oxychlordane, levels in human breast milk, 445  
 pendimethalin, photodegradation in solvents and in Kalyani soil, 1611  
 urea-, combinations, effect on ammonification and nitrification of soil, 2329

#### pH

effect of chlorination pH and Cl dose on mutagenic activity and formation of strong bacterial mutagen 3-chloro-4-(dichloromethyl)-5-hydroxy-5(2H)-furanone in water, 1903  
 effect on adsorption of dye-containing effluents with different bentonites, 1707  
 effect on struvite formation by bacteria, 1633

#### Pharmacokinetics

interaction in liver of rat, PCDDs, elimination and absence, 665  
 mice, physiologically-based pharmacokinetic model for 2,3,7,8-TCDD, 659

#### Phenols

<sup>14</sup>C 2,4,6-trichlorophenol residues and metabolism in soil, 2383  
 2-biphenylol, photochemistry in acidic aqueous soln, 1391  
 chlorinated-, and PCDD/PCDF in wood preservers for household use, 861  
 chlorophenols, adsorbed on Fe-ion exchanged montmorillonite, formation of hydroxydibenzofurans, 1895  
 nitrated-, concentration levels in conifer needles, 2433  
 humic acid catechol, reaction with soil 4-chloroaniline, 1599

#### Photochemistry

2-biphenylol in acidic aqueous soln, 1391  
 aqueous photolysis of iron complexes of NTA, EDTA and DTPA, 1805  
 bentazon, photocatalytic degradation by TiO<sub>2</sub> particles, 1437

hydride-enhanced photoreaction of chlorodibenzodioxins, 329  
 photodegradation of pendimethalin in solvents and in Kalyani soil, 1611  
 photoinduced loss of vapour phase TCDD, 1275  
 photolysis of octachlorodibenzo-p-dioxin on soils, production of 2,3,7,8-TCDD, 1265  
 toxicity of synthetic thiophene derivs to microorganisms compared with naturally occurring  $\alpha$ -terthienyl, 2317  
 UV-irradiation of tryptophan yields AHH-inducing compds with high affinity for Ah receptor, 1101

#### Physical properties

sorbate-organic matter interactions, effect on sorption nonequilibrium, 1691  
 twenty-nine halogenated dibenzo-p-dioxins and fifty-five dibenzofurans, prediction of vapor pressures, boiling pts and enthalpies of fusion by vapor pressure correlation method, 783

#### Plants

Chenopodium album and Spinacia oleracea, inside leaf fragments, distribution of phermedipham and other biscarbamates, 2077  
 conifer needles, concentration levels of nitrated phenols, 2433  
 pine tree rings, acid deposition and element composition, 1913  
 plant uptake of 2,3,7,8-TCDD from soil and potential influences of bioavailability, 1313  
 spruce needles, thermal degradation products, 1855  
 tree damage, causes, 1855  
Vaccinium myrtillus growing in tilled and untilled forest, effect of soil preparation on levels of Al, Mn, Fe, Cu, Zn, Cd and Hg, 1581  
 wheat cultivars, chlortoluron levels and selectivity, 1673

#### Plasticisers

phthalate esters in surface water and suspended particulate matter, trace level analysis by capillary gas chromatography with electron capture and mass selective detection, 2161

#### Pollutants

Cd, Cu, Pb and Zn, Atlantic coast line from Morocco, 1639  
 CDs and other pollutants, clays for removal and disposal from industrial waste water, 333  
 emissions of CDDs and CDFs from stacks of municipal waste combustors, regulatory analysis, 1143

#### Pollution

dioxin removal in "energy from waste plants" comparison of air pollution control methods, 1731  
 indoor air-, by dioxins in day nurseries, risk assessment and management, 1139  
 PCDD and PCDF in mice and insects from various environments, 759  
 refuse dump site, Volgermeerpolder, further development of remedial action, 1155

#### Polymers

high impact polystyrene, comparative toxicity of combustion products with and without decabromodiphenyl-

oxide/antimony trioxide as flame retardant using 1,2,7,8-TBDD and 2,3,7,8-TBDF as positive controls, preliminary report, 1243

vinylidene chloride-, thermal decomp, formation of chlorodibenzofurans, 1737

#### Programs

comparative toxicity of combustion products of high impact polystyrene with and without decabromodiphenyl oxide/antimony trioxide as flame retardant using 2,3,7,8-tetrabromodibenzo-p-dioxin and 2,3,7,8-tetrabromodibenzofuran as positive controls, 1243  
 environmental reference materials program, dioxin performance evaluation materials, 169

#### Proteins

2,3,7,8-TCDD and Ah receptor protein, kinetics of interaction, 731  
 and peptides, reaction with hypochlorous acid in presence of ammonium ion, formation of cyanogen chloride, 2101  
 live microsomal proteins, two-dimensional gel electrophoresis, 2,3,7,8-TCDD, 3-methylcholanthrene and phenobarbital treated rats, 947

#### Pyrolysis

and GC/MS analysis in on-line operation of brominated flame retardants, 1047  
 and slow combustion of benzene-HCl mixtures, formation of chloroarenes, 1965  
 decomp curves of dibenzodioxins by scanned tube pyrolysis with on-line ion trap MS detection, 1017  
 decomp of vinylidene chloride polymer, formation of chlorodibenzofurans, 1737  
 degradation products of spruce needles, 1855  
 dibenzodioxin, dibenzofuran and 1,2,3,4-TBDD with different Cl donors and catalysts, 1213  
 experiments, environmental behaviour of monomethyl-substituted diphenylmethanes compared with PCBs, 1199  
 PCDDs, destruction, correlation of incineration parameters, 1485  
 pyrolysed flame retardant mixtures, applications of *in vitro* AHH induction bioassay for detn of 2,3,7,8-TCDD equivalents, 383  
 pyrolysed transformer oil samples, comparison of analytical methods for chlorinated dioxin/-dibenzofuran, 1093  
 temps of-, isotopic carbon exchange between dioxins and simple chloroalkane, 2311

#### Reagents

KPEG-, laboratory and field tests to demonstrate efficacy for PCDD and PCDF in hazardous wastes and contaminated soils, 835

#### Radiosynthesis

mutagen 3-<sup>14</sup>C-3-chloro-4-(dichloromethyl)-5-hydroxy-2(5H)-furanone, synthesis and use in tissue distribution study in rat, 2229

#### Rain

tributyltin in environment, sources and fate, assessment of present status and research needs, 2015

#### Receptors

2,3,7,8-TCDD and progesterone, comparative effects on estrogenic responses in rats, 745  
 Ah-, high affinity AHH-inducing compds via UV-irradiation of tryptophan, 1101  
 decreased hepatic cytosolic glucocorticoid receptor binding in rodents treated with 2,3,7,8-TCDD, 737  
 receptor binding characteristics, 2,3,7,8-substituted PCDF radioligands, 1089

#### Refuse dump

site at Volgermeerpolder, further development of remedial action, 1155

#### Risk assessment

2,3,7,8-TCDD, assessment of exposure in Seveso area, 913  
 advances in management control technologies, 41  
 and health assessment and sources of PCDDs and PCDFs concentrations in ambient air, 1713  
 assessment and management, indoor air pollution by dioxins in day nurseries, 1139  
 assessment, closed herbicide plant in Germany, analytical program, 903  
 characterisation, 1331  
 characterisation for CDDs and CDFs, 33  
 dioxin, risk management considerations, 57  
 interim health risk evaluation, PCDDs and PCDFs in human milk, 1107  
 management considerations, 1337  
 pesticide applicators, risk of soft tissue sarcoma, Hodgkin's disease and non-hodgkin lymphoma, 395  
 potential-, from exposure to dioxin in paper mill sludge used to reclaim abandoned Appalachian coal mines, 1131

#### Sediments

and soil and surface wipes, detection of dioxin-like activity using *in vitro* bioassay, 793  
 and soils from industrial sites, quantitation of TCDD by GC/MS and GC/MS/MS techniques, 163  
 and water and biota in harbours and lakes, distribution of polychlorinated biphenyls, 2141  
 butyltins in-, 2043  
 fate of crude oil residues, 2093  
 marine-, and dredge spoils, evaluation of toxicity with microtox bioassay, 2069  
 quantifying sorption of organic chemicals, 1883  
 QWASI fugacity model, application to dynamics of organic and inorganic chemicals in lakes, 1343  
 river-, chlorinated dioxin and dibenzofuran levels, 831  
 selected estuarine-, PCDDs and PCDFs, 553

**Sewage**

anaerobic sludge digestion, fate of chlorobenzenes and permethrins, 1771

**Sludge**

and pulp from paper mills, CDDs and CDFs in, 1189

**Soil**

<sup>14</sup>C 2,4,6-trichlorophenol residues and metabolism, 2383  
4-chloroaniline, reaction with humic acid catechol, 1599  
adsorption of organic compds on anhydrous and hydrated sorbents, equilibrium adsorption and energetics, 2177  
Ames mutagenicity assay, 1657  
ammonification and nitrification, effect of urea-pesticide combinations, 2329  
and ground water beneath, closed herbicide plant, case study and decontamination steps, 1163  
and model organic adsorbents, relation between structure and adsorption of arylcarbamate, phenylurea and anilide pesticides, 1871  
and sediments from industrial sites, quantitation of TCDD by GC/MS and GC/MS/MS techniques, 163  
bioavailability of grain and soil-borne tritiated 2,3,7,8-TCDD administered to lactate Holstein cows, 1257  
concentration of chlorinated dibenzo-p-dioxins and dibenzofurans in vicinity of waste incinerator, 851  
contaminated-, and hazardous wastes PCDD and PCDF, laboratory and field tests to demonstrate efficacy of KPE reagent, 835  
contaminated-, dioxin bioavailability to animals, analytical assessment, 925  
decontamination of 2,3,7,8-TCDD by full scale rotary-kiln incinerator, 355  
geographical conditions, soil movement and other variables, effects on distribution of 2,3,7,8-TCDD in adipose tissues from Vietnam, 967  
grain- and soil-borne tritiated 2,3,7,8-TCDD, bioavailability when administered to lactating cows, 125,1257  
in Kalyani-, and in solvents, photodegradation of pendimethalin, 1611  
in UK, PCDDs and PCDFs, survey of background, 767  
ivermectin environmental safety, an overview, 1565  
ivermectin use, environmental fate and effects, 1543  
mineralisation and side effects of dichloprop dependent on organic C-content, 1447  
mobility and mineralisation of nitroguanidine and guanidine nitrate, 2389  
municipal solid waste incinerator, evaluation and comparison of emission and immission of organic and inorganic compds, 2263  
mutagenicity bioassays applied to evaluating land, 2423  
naphthalene sorption from aqueous soln, dynamic studies, 2399  
octachlorodibenzo-p-dioxin on soils, photolysis, production of 2,3,7,8-TCDD, 1265  
pesticide dissipation and vapor decline in air, models for estimation, 2375  
photolysis of octachlorodibenzo-p-

dioxin on soils, production of 2,3,7,8-TCDD, 1265  
plant uptake of 2,3,7,8-TCDD from soil and potential influences of bioavailability, 1313  
Podzol forest-, upper two horizons, association between distribution coeffs and fluctuations of Cs,Zn, Sr, Co, Cd,Ce, Ru, Tc and I, 2109  
preparation, effect on levels of Al,Mn,Fe,Cu,Zn,Cd and Hg in *Vaccinium myrtillus* growing in tilled and untilled forest, 1581  
preparation for estimation of adsorption coeffs of organic chemicals, 1495  
repeated treatment with prometryn, fate of <sup>14</sup>C residues, 2155  
respiration and microbial numbers, effect of carbofuran and its degradation products, 2345  
samples at Seveso, 2,3,7,8-TCDD in, recovery yields of early analyses for detection, 989  
TCDD in-, movement and fate, field and laboratory studies, 1297  
TCDD in-, parameters affecting translocation, 1291  
volatilisation and dissipation of acidic herbicides under controlled conditions, 2363  
volatilisation and dissipation of halogenated pesticide under controlled conditions, 2353  
Welsh-, survey of typical levels of PCBs, 1665

**Solubility**

aqueous-, and n-octanol/water coeff correlations, 1837  
of 2,3,7,8-TCDD, studies using generator column, 933  
water-, and n-octanol/water partition coeff of chemicals, evaluation of procedure for measurement, result of ring test, 1749

**Solvents**

humic substances extracted with dipolar aprotic solvents, FT-IR spectra, 1927

**Sorption**

quantifying-, of organic chemicals in sediments, 1883

**Sources**

rapporteur's comments, 1329

**Sterilisation**

soil preparation for estimation of adsorption coeffs of organic chemicals, 1495

**Steroids**

2,3,7,8-TCDD and progesterone, comparative effects on estrogenic responses in rats, 745  
decreased hepatic cytosolic glucocorticoid receptor binding in rodents treated with 2,3,7,8-TCDD, 737

**Spectrometry**

capillary gas chromatography and mass selective detection, detn of chlorinated aromatic hydrocarbons in fly ash, evaluation of clean-up methods, 1401  
GC/MS and GC/MS/MS techniques, quantitation of TCDD in soils and sediments from industrial sites, 163  
high resolution gas chromatography/high resolution mass spectrometry, new analytical protocol for

multimedia characterisation of PCDDs and PCDFs, 119  
high resolution mass spectrometry, detn of PCDDs and PCDFs in environment, 109  
low resolution mass spectrometry, ambient air and incinerator testing for CDDs and CDFs, 585  
pyrolysis and GC/MS analysis in on-line operation of brominated flame retardants, 1047  
tandem mass spectrometry, CDDs and CDFs in environment, 155  
thermal degradation products of spruce needles, 1855

**Spectroscopy**

Fourier transform IR spectroscopy, molecular geometry/toxicity correlations of TCDDs, 981  
FT-IR spectra, humic substances extracted with dipolar aprotic solvents, 1927  
IR spectroscopy, application to dioxin analyses of environmental samples, 897  
UV-irradiation of tryptophan yields AHH-inducing compds with high affinity for Ah receptor, 1101

**Sulphur compounds**

diallyl sulphide, insecticidal principle of garlic, environmental persistence and metabolism in *Culex pipiens*, 1525  
dibenzothiophene and alkylated dibenzothiophene in crude oil residues, 2093  
diethylamine, detn in air using diffusive sampling and thiourea formation, high performance liquid chromatography, 2121  
polychlorinated biphenyl methylsulphone congeners in human tissues, identification of methylsulphonyl dichlorobiphenyls, 477  
synthetic thiophenes and their acetylenic derivs, UV-mediated antibiotic activity, 2317

**Techniques**

control technology, rapporteur's comments, 1333  
dioxin, advances in risk management control technologies, 41  
dioxin contaminated waste, detoxification using potassium polyethylene glycolate, 343  
GC/MS techniques to measure 2,3,7,8-TCDD in ambient air, 141  
LFER, sorbate-organic matter interactions, effect on sorption nonequilibrium, 1691  
sampling-, for collection of PCDD, PCDF and PCB in ambient air, assessment, 177  
scanned tube pyrolysis with on-line ion trap MS detection, thermal decomposition curves of dibenzodioxins, 1017  
trace level analysis by capillary gas chromatography with electron capture and mass selective detection of phthalate esters in surface water and suspended particulate matter, 2161  
twenty-nine halogenated dibenzo-p-dioxins and fifty-five dibenzofurans, prediction of vapor pressures, boiling pts and enthalpies of fusion by vapor pressure correlation method, 783  
water solubility and n-octanol/water partition coeff of chemicals, evaluation of

procedure for measurement,  
result of ring test, 1749

#### Thermal reactions see Pyrolysis

#### Tissues, Tissue fluids and Body organs

2,3,7,8-TCDD, induction of hepatic monooxygenase system, reexamination of dose response relationship, 363  
adipose and blood levels of dioxin and dibenzofuran congeners, correlation in agent orange exposed Vietnam veterans, 517  
adipose tissue, elevated body burdens of 2,3,7,8-TCDD, 431  
adipose tissue from Vietnam, 2,3,7,8-TCDD in, effects of geographical conditions, soil movement and other variables on distribution, 967  
adipose tissue levels of 2,3,7,8-TCDD in adults in Vietnam 1984-87, 1057  
adipose tissue, levels of 2,3,7,8-TCDD in persons of no known exposure and in exposed persons, 499  
adipose tissue of occupationally exposed workers, levels of PCDDs and PCDFs, 507  
blood and adipose tissue levels over 3 years in patient after exposure to PCDDs and PCDFs, 635  
blood levels of 2,3,7,8-TCDD and related compounds, effects of fasting, 525  
blood of Vietnam veterans two decades after exposure to agent orange, measurement of PCDD and PCDF isomers, 531  
blubber of seals, identification of tris(chlorophenyl)methanol, 1799  
breast milk, levels of PCDD and PCDF as correlated with fish consumption, 455  
embryotoxicity, TCDD-induced in rats, due to maternal toxicity? 291  
epidermal Langerhans cells in mouse skin, increase after TCDD treatment, 253  
human fat and liver samples, concentrations of PCDD and PCDF, 491  
human milk, chlorinated dioxins and dibenzofurans in people from Japan, India and USA, 975  
human milk, levels of PCDDs, PCDFs, PCBs, DDT and DDE, hexachlorobenzene, dieldrin, hexachlorocyclohexanes and oxychlordane, 445  
human milk, PCDD and PCDF levels depend on period of lactation, 439  
human milk, PCDDs and PCDFs, interim health risk evaluation, 1107  
human milk, PCDDs and PCDFs, WHO/EURO quality study, 883  
human milk, PCDD and PCDF levels, dependence on various parameters, 1063  
human serum, 2,3,7,8-TCDD measurement, quality assurance program for large-scale study, 1009  
human tissues, polychlorinated biphenyl methylsulphone congeners, identification of methylsulphonyl dichlorobiphenyls, 477  
liver DNA alterations by 2,3,7,8-TCDD and 1,2,3,7,8-pentachlorodibenzo-p-dioxin in female rat, 681  
liver of Atlantic cod, presence of organo chlorine compounds and bromodiphenyl ethers, 2131  
liver, of male rat OCDD exposure,

subchronic effects, 389  
liver of rat, benzpyrene-hydroxylase induction, dynamic comparison of 2,3,7,8-TCDD and 3-methylcholanthrene, 723  
liver of rat, pharmacokinetic interaction, elimination and absence of PCDFs, 665  
lymphocytes, increased SCE frequencies in humans exposed to PCBs and PCDFs, incubation with  $\alpha$ -naphthoflavone due to metabolic activation by P-450 isozymes, 687  
olfactory organ of rainbow trout, selective accumulation of chlorinated paraffins ( $C_{12}$  and  $C_{16}$ ), 1821  
parenchymal and non-parenchymal rat hepatic cells,  $^{14}C$ -2,3,7,8-TCDD distribution between, effect of vitamin A content of these cells, 307  
serum, 2,3,7,8-TCDD in for Vietnam veteran Agent orange study, detn, analytical methodology and method performance, ranch hand validation and half-life studies and selected NIOSH worker studies, 875  
serum, basis for measurement of 2,3,7,8-TCDD, 425  
serum levels of DDT, DDE and DDD, single step extraction and cleanup procedure, 2985  
thymus weight and live enzyme induction, rats perinatally dosed with 2,3,7,8-TCDD, 2,3,4,7,8-PeCDF and 1,2,3,7,8-PeCDD, measurement of relative toxicity, 955  
tissue distribution study in rat, synthesis and use of mutagen 3- $^{14}C$ -3-chloro-4-(dichloromethyl)-5-hydroxy-2(5H)-furanone, 2229  
tissue of herbicide sprayer, 2,3,7,8-TCDD elevated levels, single case study, 469  
various organs in autopsy tissue from USA patients, PCB, DDT, DDE and HCB and PCDD/F isomer levels, 811  
waste oil, soil and biological tissue samples in PCDDs and PCDFs, detn by simple clean-up procedures, 69  
Yusho disease, levels of PCDDs, coplanar PCBs and PCDFs in patients and in Yusho oil, 407

#### Toxicity

2,3,7,8-TCDD at 5 or 25 ppt, chronic dietary intake of monkeys, TCDD kinetic and dose effect estimate of reproductive toxicity, 243  
2,3,7,8-TCDD toxic equivalents, validation of AHH induction bioassay for the detn, 941  
aquatic toxicity and environmental behaviour of PCBs, comparison with polychlorinated monomethyl substituted diphenylmethanes, 1367  
comparative-, of combustion products of high impact polystyrene with and without decabromodiphenyl oxide/antimony trioxide as flame retardant using 2,3,7,8-tetrabromodibenzo-p-dioxin and 2,3,7,8-tetrabromodibenzofuran as positive controls, 1243  
dioxin, dose response assessment, 1  
embryotoxicity, TCDD-induced in rats, due to maternal toxicity? 291  
equivalence factors for CDDs and CDFs, reexamination of data

used, 371  
evaluation of by-products of dechlorinated 2,3,7,8-TCDD, 2293  
ivermectin use, environmental fate and effects, 1543  
molecular geometry/toxicity of TCDDs, correlations by Fourier transform IR spectroscopy, 981  
of marine sediments and dredge spoils, evaluation with microtox bioassay, 2069  
relative-, of 2,3,7,8-TCDD, 2,3,4,7,8-PeCDF and 1,2,3,7,8-PeCDD measured by thymus weight and live enzyme induction in perinatally dosed rats, 955  
relative-, of CDDs, CDFs and PCBs in lake Ontario salmonids to mammalian systems using toxic equivalent factors, 1413  
selected N-containing aromatic compounds in *Tetrahymena pyriformis* and *Pimephales promelas* test systems, 2283  
subchronic-, in rats of chlorinated dibenzofurans, 265  
subchronic relay-, study of PCDD and PCDF mixtures, 277  
toxic significance of planar aromatic compounds in Baltic ecosystem, new studies on extremely toxic coplanar PCBs, 1067  
views of 2,3,7,8-TCDD, 33

#### Transformers

pyrolysed transformer oil samples, comparison of analytical methods for chlorinated dioxin/-dibenzofuran, 1093

#### Translocation/migration

TCDD in soil, movement and fate, field and laboratory studies, 1297  
TCDD in soil, parameters affecting translocation, 1291  
translocation of TCDD in soil, affecting parameters, 1291

#### Transport

long range transport of airborne particles of PCDDs and PCDFs, 1283  
PCDDs and PCDFs on airborne particles, long-range transport, 1283  
rapporteur's comments, 1329  
TCDD-, at Times beach and at Eglin AFB, rate comparison, 1305

#### Vitamins

vitamin A content of cells, effect on  $^{14}C$ -2,3,7,8-TCDD, distribution between parenchymal and non-parenchymal rat hepatic cells, 307  
vitamin A homeostasis and 7-ethoxyresorufin O-deethylase activity, 2,3,7,8-TCDD-induced changes in Sprague-Dawley rats and Hartley guinea pigs, 299

#### Volatile compounds

adsorption of organic compounds on anhydrous and hydrated sorbents, equilibrium adsorption and energetics, 2177  
anoxic marine environment, distribution and fate of halogenated organic compounds, 2247  
leachate from waste landfills, application of headspace analysis and AOX measurement, 1943  
pesticide dissipation from soil and vapor decline in air, models for estimation, 2375  
photoinduced loss of vapour phase

TCDD, 1275  
 TCDD in soil, movement and fate, field and laboratory studies, 1297  
 volatilisation and dissipation of acidic herbicides from soil under controlled conditions, 2363  
 volatilisation and dissipation of halogenated pesticide from soil under controlled conditions, 2353

#### Wastes

CDDs and CDFs, in surface water near chemical dump sites, analysis using aqueous phase liquid extractor, 133  
 concentration of chlorinated dibenzo-p-dioxins and dibenzofurans in vicinity of waste incinerator, 851  
 dioxin contaminated-, detoxification using potassium polyethylene glycolate, 343  
 dioxin removal in "energy from waste plants" comparison of air pollution control methods, 1731  
 dioxin, advances in risk management control technologies, 41  
 dioxins and related compds, formation and decomposition in fluidised bed incinerators, 321  
 hazardous-, and contaminated soils, PCDD and PCDF, laboratory and field tests to demonstrate efficacy of KPEG reagent, 835  
 incineration of-, formation of polychlorinated monobenzodioxins, monobenzofurans and monobromobenzenes as intermediates in formation of PCDDs and PCDFs, 1431  
 leachate from landfill-, application of headspace analysis and AOX measurement, 1943

municipal solid-, combustion, PCDD and PCDF in emissions and in stack gases, 1465  
 municipal solid-, combustion, PCDD and PCDF in emissions and in fly ash, 1475  
 municipal-, combustors, CDDs and CDFs from stacks, regulatory analysis of pollutant emissions, 1143  
 municipal-, incineration and background environmental contamination from dioxin, comparison of human exposure, 643  
 municipal-, incineration, PCDDs and PCDFs, 1785  
 municipal-, incinerators, de-novo synthesis of PCDD/PCDF on flyash, 1219  
 municipal-, incinerators, PCDD/PCDF, de novo synthesis on fly ash, 1219  
 municipal solid-, incinerator, evaluation and comparison of emission and immission of organic and inorganic compds, 2263  
 outdoor burning of-, PCDDs and PCDFs in environment 1025  
 PCB, PCDD and PCDF contamination, PCB disposal facilities, 569  
 PCDDs and PCDFs in waste oil, soil and biological tissue samples, detn by simple clean-up procedures, 69  
 separating procedures for isolation of 2,3,7,8-TCDD and 2,3,7,8-TCDF from chemically-complex aqueous and solid matrices and quantitation at PPQ to PPT concentrations, 93

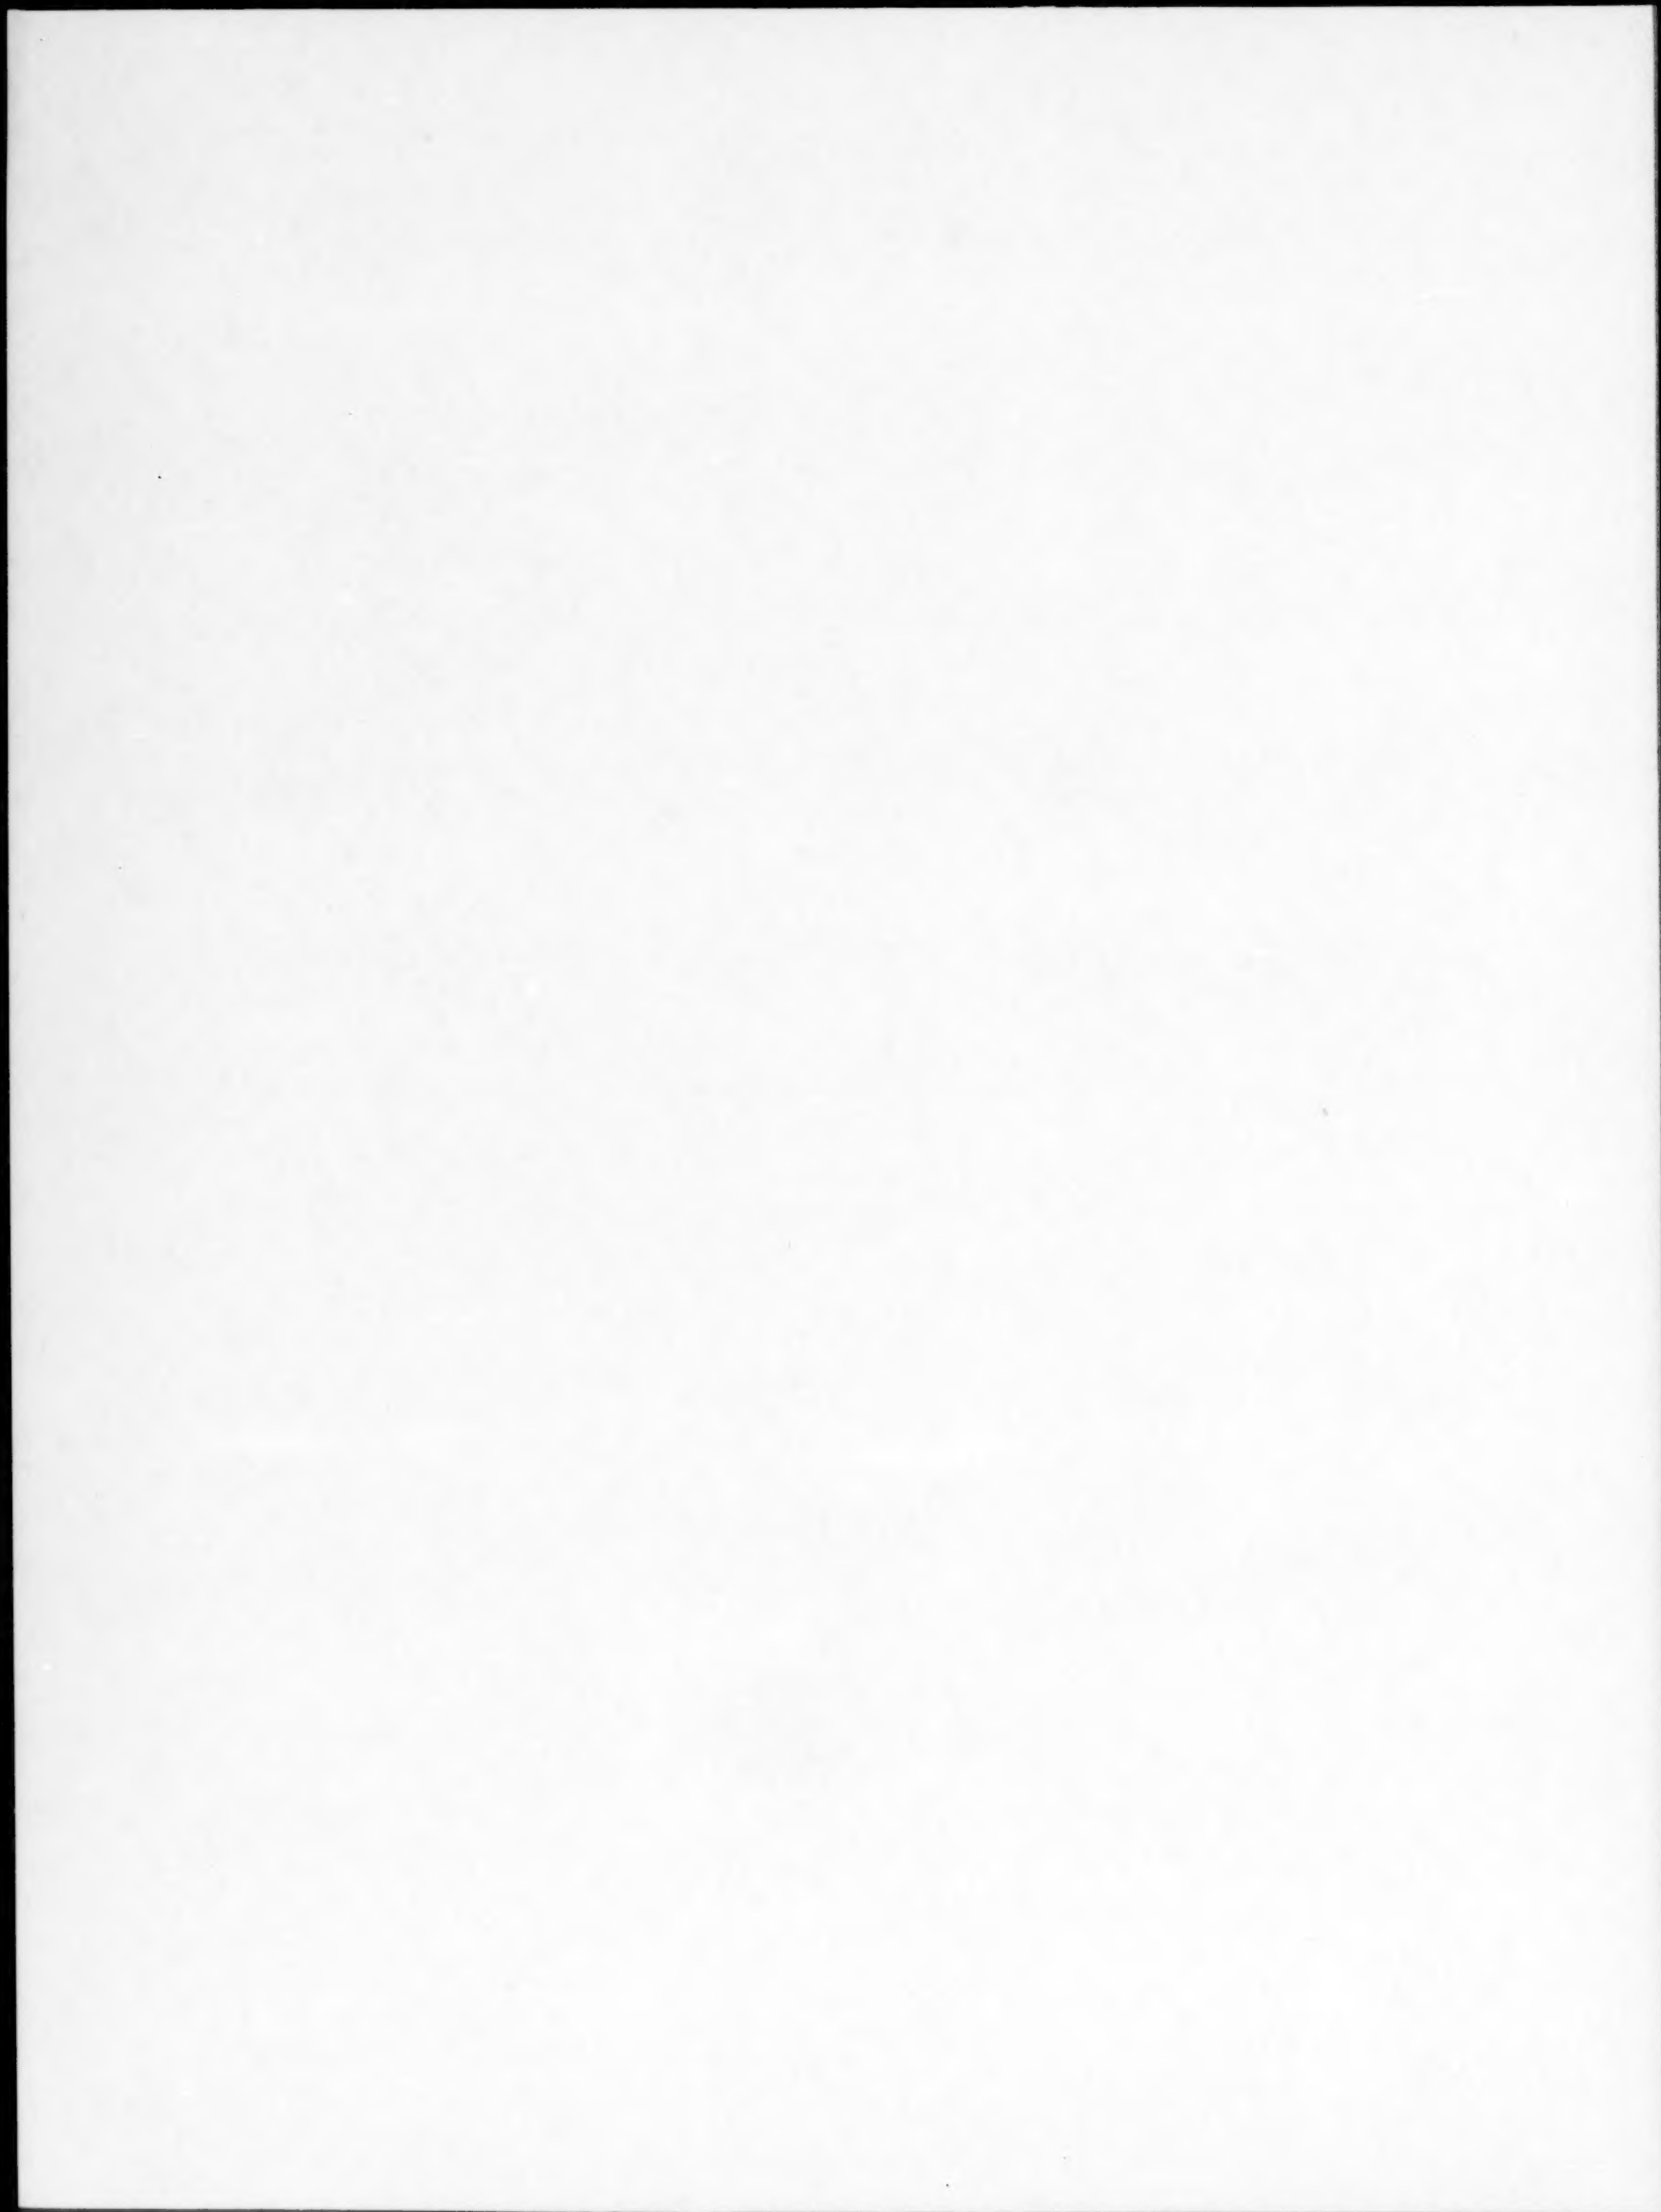

#### Water

alkylbenzenes and water vapors, competitive adsorption on predominantly mineral surfaces, 971  
 and sediment and biota in

harbours and lakes, distribution of polychlorinated biphenyls, 2141  
 ground-, and soil beneath closed herbicide plant, case study and decontamination steps, 1163  
 industrial waste-, clays for removal and disposal of chlorinated dioxins and other pollutants, 333  
 phthalate esters in surface water and suspended particulate matter, trace level analysis by capillary gas chromatography with electron capture and mass selective detection, 2161  
 processed wastewater, detn of 2,3,7,8-TCDD in parts per quadrillion level, 2257  
 QWASI fugacity model, application to dynamics of organic and inorganic chemicals in lakes, 1343  
 solubility and n-octanol/water partition coeff of chemicals, evaluation of procedure for measurement, result of ring test, 1749  
 supply contamination by atrazine and molinate, report, 2339  
 surface-, near chemical dump sites, analysis using aqueous phase liquid extractor, 133  
 volatile organochlorine compds, quantitative in, detn by GC - headspace analysis with dibromomethane as internal standard, 1425  
 wastewater, soil mobility and mineralisation of nitroguanidine and guanidine nitrate, 2389

#### Wood

kerosene heaters and wood-burning fireplaces, levels of benzo(A)pyrene in indoor environment, 1829  
 preservers for household use, PCDD/PCDF and chlorinated phenols, 861
